

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

# REPORT

OF THE

Philippine Exposition Board

TO THE

Louisiana Purchase Exposition

AND

OFFICIAL LIST OF AWARDS

GRANTED BY THE

Philippine International Jury

At the Philippine Government Exposition

WORLD'S FAIR, ST. LOUIS, MO.

---

ST. LOUIS, MO., U. S. A.

1904

Rememor de J. A. L. y amigo  
Eustacio Mederlein  
Enero 1905.

Mr. A. E. Anderson, architect.

Mr. Jas. D. Lalor, chief engineer.

Miss Pilar Zamora, superintendent of Model School.

Mr. Jose Quadras, chief of Fish and Game.

In addition to this official staff, there was a large force of laborers, clerks, etc., employed in installing and maintaining the exhibits.

In spite of the hard rains, the Philippine Exposition was formally opened to the public on June 18th, and Colonel Edwards as representative of the secretary of war, transferred the exhibits to President Francis. In the presence of a large crowd, the parade of eleven hundred natives, ranging from the uniformed Scouts to the simply-garbed Igorot, passed in review before the secretary of the treasury, Honorable Leslie M. Shaw, President Francis, General John C. Bates, commanding the Northern Division of the United States army, Colonel Edwards, and other distinguished visitors. The stand was decorated with American flags and the arms of the Philippines with the devices of the different provinces. The exercises were opened with prayer by Rev. Jose Algue, S. J., director of the Philippine Weather Bureau. Dr. Wilson, chairman of the board, then spoke of the collection of exhibits and the preparation of the Exposition. He was followed by Colonel Edwards who read a number of congratulatory telegrams from President Roosevelt, Secretary Taft and others. Addresses were also made by Mayor Wells, President Francis and Dr. Niederlein, director of exhibits.

August 13th, the anniversary of the fall of Manila was set aside by the Exposition authorities as "Philippine Day" and for a week or more before that date was widely advertised. At 10:30 in the morning, over 6,000 soldiers of the United States formed at the parade entrance, escorted the guest of honor, the secretary of war, and other distinguished guests, through the grounds of the Louisiana Purchase Exposition to the Philippine reservation. In the grandstand many veterans of the Philippine campaigns were gathered: General Humphrey, General Merritt, General Chas. King, General Bell, General Smith, General Bates, General Hale, General Wheaton, Colonel Edwards and others, together with President Francis, Mayor Wells, the officials of the Philippine Exposition and many of the honorary Filipino commissioners. Secretary Taft made a memorable speech on the opportunities in the Philippines and the proper legislation to secure the best results. Hon. Benito Legarda, president of the honorary commission, spoke of the feeling of the Filipinos toward America and American government of the islands and the gratification of the members of the commission over the representation at St. Louis. Dr. Wilson, Congressman John Allen and others also spoke.

## THE FORESTRY EXHIBIT.

MR. GEORGE P. LINDEN, CHIEF.

This exhibit is installed in a handsome and characteristic bamboo and nipa structure of the bungalow type. The exhibit itself is the wonder and admiration of visitors, those in a position to know asserting that it is the most complete and elaborate of its kind ever gotten together. Certainly no other forestry exhibit at the Louisiana Purchase Exposition equals it in variety or splendor.

The installation of the Forestry exhibit was completed by the opening day. The interior of the building is divided into four parts, of which two are utilized to show the woods in the rough, and planed and polished states; a third being used to display the forestry by-products, and the last to contain the finished products made into furniture. This display shows the skill of the Filipino workmen in cabinet-making, carving, inlaid-woodwork-etc., and demonstrates the possibilities of the various woods.

## THE WOOD EXHIBIT.

Directly in the central aisle are two pieces of Calantas, or "Philippine cedar," 36x5 feet in size. One is highly polished, and the other is in the rough state, showing the daily work of cutting with an ordinary frame saw by Chinese workmen.

On the left side of the Calantas wood, the timber testing laboratory of the Manila Bureau of Forestry has exhibited some of the commercially known woods, given all known data relating to same, the vulgar and scientific names, locality, distribution, uses and prices on beach and market in Manila.

On the right side of the Calantas woods, sections of trees eight feet high are shown in pairs, one in the rough and one in the polished state. Above both exhibits some very fine specimens of boards one inch thick, from eighteen to thirty inches wide and twelve to eighteen feet long are displayed. On either side of these columns smaller samples of woods are shown in pyramids. Directly in the center of the building in the rotunda, is a column of woods twenty feet high made of the respective varieties, Narra, Supa, Tindalo and Guijo, all highly polished. The entire wall space of the building is covered with planks sixteen feet high, shown in pairs, planed and varnished. In the southeast and southwest parts of the building, extremely large samples of Narra, Calantas and Tindalo are displayed, each being fourteen to sixteen feet long, not less than three to four feet wide and ranging from six to eight inches in thickness. There is also a Narra table top nine feet seven inches in diameter.

### THE BY-PRODUCTS.

This section of the building is lined with show cases in which are principally displayed gums, rosins, medicinal plants, seeds, fruits, oil seeds, oils and perfumes. In the interior are pyramids of Brea and Gum Almaciga (Dammar) and torches made of resin and palm leaves, and some cocoanuts. In the corner of the northeast end of the building a pyramid of gutta percha and sections of gutta percha trees may be seen. In a wall case are rubber samples of different qualities, and manufactured articles of calabash and cocoanuts.

Directly above this show case textile fibers, basts and the gogo or soap-bark are displayed. Manufactured articles in the fourth section consist of tables, chiffoniers, sideboards, wardrobes, desks, trunks, bedsteads, all highly polished, while some are artistically carved and inlaid with mother of pearl.

The Bureau of Forestry, Manila, exhibits specimens of tested timber, models showing transportation of logs, and a large collection of photographs. The Government Laboratories present a large herbarium of the Philippine flora. Through the entire building suspended from the rafters, are basts, fibers, hammocks, raincoats, and woodenware mounted on shields. On the veranda, rattans, bamboo timber in the rough, tan and dye barks, fruits of timber trees, rattan chairs, and benches are displayed.

The total number of exhibitors in this department is twelve hundred and ninety-four. The Superior jury approved the following awards:

Grand prizes, three; gold medals, twenty-four; silver medals, thirty-nine; bronze medals, thirty-two; honorable mentions, two hundred and seven; total number awards granted, three hundred and five.

On August 5th, the Filipino students arrived, and eight were detailed to the Forestry building to explain the different exhibits to visitors.

---

### COMMERCE AND MANUFACTURERS.

CHARLES P. FENNER, CHIEF.

---

While in the Philippines, Dr. Gustavo Niederlein, of the Philippine Exposition board, conceived the idea of making a commercial exhibit, showing the articles of importation, their cost, method of packing, etc. This was carried to a most successful conclusion, and has awakened much interest in Philippine commercial matters, which can but result in benefit to both American and Philippine business men. Exhibitors of samples of imports in

this department have been awarded suitable medals and diplomas for their collaboration and the wisdom of the scheme has been fully demonstrated.

The work of installation began February 20th and was concluded on June 16th, since which date the Commerce building has been open to the public. This work was accomplished by the building of nineteen wall cases, placing of thirty smaller cases, setting up and finishing three large private cases for cigars and cigarettes, and building a platform and setting up five large private cases for liquors, building a platform for a large exhibit of rope and hemp and installing nearly eight thousand exhibits. Most of the exhibits went in the cases, but some of the larger articles were installed without enclosure.

The jury work was taken up on the arrival of the honorary commissioners and the number of awards recommended by the jury in the Commerce building was as follows:

For actual exhibitors: Grand prizes, eleven; gold medals, twenty-eight; silver medals, eighteen; bronze medals, forty; honorable mentions, two hundred and seventy-one; special gold medal, one.

For collaborators: Grand prizes, seven; gold medals, one; special gold medal, one; silver medals, twenty-one; bronze medals, twelve; honorable mentions, eight.

It is difficult to make the installation of a commercial exhibit attractive but with the material and facilities at hand a creditable showing has been made.

The most successful installation in the building is that of the liquors of Ynchausti & Company of Manila, who were awarded a gold medal for the exhibit and a special gold medal for the superiority of the installation over all others in the department. The grand prize was also awarded this company for its exhibit of rope which is most attractively installed and has elicited very favorable comment as to its appearance and superior quality. Their hemp, which was used largely for decorative purposes, was awarded a gold medal and they received also a gold medal for their exhibit of sugar.

The exhibits of the Germinal and Insular Cigar factories each received a grand prize and are very well displayed in beautiful native Philippine hardwood cases.

The display of "El Sport" also received a grand prize and is one of the most creditable in the building.

Gold medals were awarded for the exhibits of hemp to Warner, Barnes & Company, McLeod & Company, and Smith, Bell & Company, the latter company receiving also a grand prize for its exhibit of Copra.

The San Miguel Brewery was awarded a grand prize for the excellence

and reputation of its product. The Ylang-Ylang industry is represented by Stahl & Rumcker, Legarda & Tuason, and H. G. Lane, the first two of whom received gold medals and the latter a silver medal. Legarda & Tuason were also awarded a gold medal for their exhibit of distilled liquors. For the small but excellent exhibit of rope of B. Valenzuela, a gold medal was awarded.

The Commercial Library, consisting of the Philippine tariff and customs administrative act, public laws and resolutions passed by the civil commission, and other books of interest, have served excellently as works of reference.

The department has been in receipt of many inquiries as to commercial matters in the islands and has disseminated much valuable information among American business men, intending investors, and others interested.

---

## DEPARTMENT OF LIBERAL ARTS AND FINE ARTS.

DR. LEON M. GUERRERO, CHIEF.

---

### LIBERAL ARTS.

The objects belonging to the department are installed in the two wings on the ground floor of the Government building, while the fine art exhibit is placed in the art gallery formed by the rear wing of the building. Taking advantage of the available facilities, they were arranged so as to give unity to the whole, notwithstanding their variety, thus making the general effect pleasing to the eye.

A collection of mollusks of great scientific value belonging to Mr. Quarras, and a collection of insects prepared by Charles S. Banks, were placed, respectively in the right and left wings of the building. Although not really belonging to the department they have proved to be a great attraction to the intelligent public.

The large collection of books, pamphlets, newspapers, photographs, etc., relating to the Philippines, the maps, the public and private house models, the different exhibits of the Insular Government bureaus, have also been exhibited in the places above mentioned. The needle work in silk cloth, pina and cotton, together with work in leather, silver and gold, and musical instruments noteworthy on account of perfect workmanship, as shown in the piano of Mr. Trinidad, are equally well displayed for public inspection. Among the musical productions should be specially mentioned, the *Tonopsis Mecanica* of Mr. Canseco, an apparatus which, by purely mechanical means, gives the chords of any melody.

After the review of the Superior jury, the prizes awarded to this department were as follows:

Grand prizes, fourteen; gold medals, fifty-five; silver medals, sixty-four; bronze medals, forty-five; honorable mentions, one hundred and twenty-three.

#### FINE ARTS.

The main installation was made in the reception hall of the Government building, both for paintings and sculpture. Of the first mentioned there were sixty-one, selected for special merit, and of the second twenty-eight, notable for their artistic inception and execution. The remainder were divided between the Educational building and the Manila house, there being eighty-five oil paintings aside from water colors and some drawings in crayon, thirty-five pieces of sculpture and eight wood-carvings. Among the pieces of sculpture there were included certain ancient pieces which, in certain respects, illustrate the history of this branch of fine arts cultivated by the Filipinos with special application to religious iconography.

The artists of many of these works have been recognized in other competitions as real masters in the world of art, notably: Luna, Resurreccion-Hidalgo, Zaragoza, De la Rosa, Rivera, Espiritu, Antillon and Santos among the painters and Pardo de Tavera, Tampinco, Teotico, Gaudinez, Garcia and others in sculpture and wood-carving.

In July the paintings and sculptures were examined, and the following awards were unanimously made:

Grand prizes, four; gold medals, fifteen; silver medals, thirty-one; bronze medals, thirty-eight; honorable mentions, forty-two.

A large number of people visited and admired these exhibits daily.

---

#### THE PHILIPPINE WEATHER BUREAU.

DR. RAMON LACSON, CHIEF.

---

The Manila observatory has taken a special interest in the St. Louis Exposition and has exhibited a model of a first-class meteorological-seismic station equipped with the very latest instruments. This model, unlike the others on exhibition at the World's Fair, is in working order, and all the recording instruments are continually kept in motion by the head mechanic of the Manila Central observatory, Mr. Roman Trinidad.

The work in this meteorological station consists principally in taking two daily observations of Green's mercurial barometer, of the maximum and mini-

num temperature of the psychrometer, of the direction of the winds and of the clouds, and also when it rains the amount of rain that has fallen before the time of the observation. Besides these direct observations, the following phenomena are automatically recorded—the velocity and direction of the wind with Richard's Anemograph and Anemo-cinemograph, with Friez' Quadruple Register and with an Anemograph invention of the observatory; the rainfall with Richard's pluviograph; the atmospheric pressure with the ordinary Richard's barograph; the electric disturbances with both Odenbach's and Fenyi's ceraunographs. The universal microseismograph, invention of Vicentini, but modified by Father Algue and built by the mechanics of the Manila observatory is also carefully set each day.

As is well known, the Manila observatory exhibits also a set of relief maps, each of which is an original map, having been built by the mechanics of the Manila observatory under the direction of Rev. Jose Algue, S. J. The most important of these maps and the one that evokes the general admiration of visitors, is the huge out-door map of the Philippine Islands, as defined by the Paris treaty in 1896 and the subsequent treaty with Spain in 1899. This map measures 110 feet from north to south and 75 feet from east to west, the horizontal scale being 36 to 50 kilometers, and the vertical scale in the proportion of twenty-eight inches to every five kilometers.

In order that the climate of the Philippines may be more universally known, the pamphlet, "The Climate of the Philippine Islands," by Rev. Jose Algue, published by the Department of Commerce and Labor, is distributed among inquiring visitors.

The installation of the Philippine Weather Bureau exhibit was complete at the formal opening of the Philippine Exposition grounds on June 18, 1904. The exhibit is divided into two sections; the meteorologico-seismical, and the geographical.

The Meteorologico-seismical section is represented by a model first-class Meteorologico-seismical station, which has been awarded the grand prize by the Philippine International jury of the Louisiana Purchase Exposition. The station is provided not only with instruments that are generally to be found in first-class meteorologico-seismical stations, such as thermometers, barometers and barographs, anemometers and anemographs, pluviometers and pluviographs, psychrometers and psychrographs, sunshine recorder, vaporimeter and peismographs, but also with instruments that have been recently invented, and which are to be found only in a few well appointed observatories. First in importance among these instruments is the baro-cyclone-meter of Rev. Jose Algue, S. J. This instrument, together with the Refraction Nephoscope of the same inventor, has been awarded the "Grand Prize." The others are the

universal microseismograph of the Vicentini type, built by Mr. Roman Trinidad and other mechanics of the Manila observatory, under the direction of Rev. Jose Algue, S. J., who also modified the vertical part of the apparatus, which was awarded a "Gold Medal;" the Seismographic Pedulum of Fr. Suarez, S. J., built by the same mechanics, also merited a "Gold Medal;" the two types of ceraunographs, the Odenbach's and the Fenyi's; the first named one is a duplicate of the only ceraunograph existing in the new continent, while the other is the first ceraunograph built according to the plans of the inventor, who is the only one that has experimented extensively in this line in the old continent. All of these instruments have been in working order since the beginning of the Exposition, and two daily observations have been taken by Mr. Roman Trinidad.

The geographical section consists principally of the big outdoor relief map of the Philippine Islands already described. This map is supplemented by eight other relief maps showing the rainfall and wind direction in the islands, both during the dry and wet seasons, the mines and mineral springs, the political and religious divisions, the ethnography, the earthquake frequency, the forestry and agriculture. There are also exhibited several maps of less importance, such as the relief map of Manila bay, the map of Manila and surrounding towns, used by General Otis, early maps of the Philippines, etc. This collection of maps was awarded a grand prize. There are also two maps of Mindanao made by Filipino draughtsmen, exhibited by the Society of Jesus of the Philippines that have been given a "Gold Medal." The two books, "El Archipelago Filipino," and "Labor Evangelica," exhibited by the Society of Jesus of the Philippines, and by Rev. Pablo Pasttells, S. J., respectively, were each awarded a "Gold Medal." This building has been honored by the presence of many intelligent visitors who have admired not only the completeness of the Metereological-seismical station, but also the skill shown by the Filipinos in preparing the maps.

---

### THE EDUCATIONAL EXHIBIT.

A. R. HAGER, CHIEF.

---

The educational exhibit is installed in a large well lighted building which is a diminished model of the Manila cathedral. Central walls and alcoves, covered with green burlap, were erected to give wall space, and two hundred and twenty square meters of space were thus provided. In preparing the exhibit the first step was to enlist the co-operation of the American and Filipino teachers in the Government schools, about two thousand in number, and as many

as possible of the teachers of private schools. To this end, circulars were sent to every American teacher, and visits were made to the school divisions near Manila. Supplies of school materials, uniform paper for written work, etc., were sent by the Bureau of Education, which gave every assistance possible to schools that requested such material. Letters were written to a number of educators in America requesting personal expressions as to what they would find most interesting in a Philippine educational exhibit. In response, many helpful suggestions were received.

The educational exhibit, known as "Department A" of the Philippine Exposition board, contains collections sent by four hundred and thirty-eight exhibitors and consists of eight thousand five hundred and forty-two exhibits.

Labels of various sizes have been freely used throughout the collection to give visitors information regarding collections and conditions of school work in the Philippines, particularly where these conditions differ from those of the United States.

Written work has been displayed in flat top wall cases arranged according to school divisions, some of the typical work being shown open under glass. These cases are so arranged that they may be opened without disturbing this displayed work to give access to other written work of the division. Notices are printed on each case as follows:

"Teachers or students who wish to examine for reference the work contained in this case may obtain access to it by applying at the office in this building."

The industrial exhibits and photographs fill thirty glazed show cases and the wall space around these cases, and are arranged by school divisions. These show cases vary in size from 1-2 to 7 cubic meters. The photographs were placed in glazed frames screwed to the walls, and bear exhibit numbers and descriptive labels.

The Philippine jury of Department "A," after careful examination of the exhibits submitted their list of awards to the Superior jury. The revised list of awards contains eight grand prizes, as follows: The secretary of Public Instruction, and the general superintendent of education, on the exhibit as a whole; the Philippine Model School; Laguna High School; Liceo de Manila, secondary school; the Philippine Nautical School; the Philippine Normal School and the University of Santo Tomas.

Thirty gold medals, seventy-one silver medals, one hundred and ten bronze medals, and three hundred and twenty-three honorable mentions were also awarded.

The Model School has been in session since July 19th in a typical nipa and bamboo school house especially arranged for exhibition purposes. It is in

charge of Miss Pilar Zamora, a Tagalog, who is a teacher in the Philippine Normal School. Two sessions are held daily, except Monday, the first from 9 to 10:30 for children from the Visayan village, and from 10:30 to 11:30 for children from the villages of the non-christian tribes. The latter includes children of the Bontoc Igorot, Suyoc Igorot, Negrito, Bagobo, Tinguian, Samal Moro and Lanao Moro tribes.

The number of visitors to the Educational building and Model School has been large, the number visiting the school during the two and one-half hours' session by actual count often exceeding two thousand.

At the annual meeting of the National Educational Association, papers on Philippine education were read by Dr. E. B. Bryan, former general superintendent of education, Miss Pilar Zamora, superintendent of the Model School, and A. R. Hager.

Miss Pilar Zamora also delivered an address on Philippine education at X Chautauqua, New York, on the afternoon of August 11th.

A register of visiting teachers has been kept since the opening day and now contains some thirteen thousand names. Many of the schools which sent exhibits included letters from the pupils to American boys and girls. These letters have been distributed to teachers who were interested and who have agreed to see that they are answered. This promises to result in an interesting correspondence between school children in the Philippines and those in all parts of the United States.

An interesting feature of the exhibit is a record, with data, of each Filipino student in America. The records of students sent to America at the expense of the Insular government were furnished by Mr. W. A. Sutherland. Those of other students were obtained by writing to the directors of schools and universities concerned. In some cases these are accompanied by photographs. The visits of American teachers from the Philippines have made it possible to give interested visitors information with regard to school conditions in the archipelago. Assistance has been given in this way to teachers desiring to go to the Philippines, to publishers in the preparation of special text-books, to correspondents, lecturers and others.

While the Filipino students were visiting the Exposition a number of X them were on duty at all times in the Educational building. They were instructed as to the location of the various exhibits and points of particular interest and their services in explaining these points to visitors were valuable. They made an admirable impression.

The following literature has been distributed to interested visitors at the Educational exhibit: Philippine Exposition Folder No. 1, sent early in the year to some eighty thousand teachers in the States, nearest to St. Louis.

Catalogue of "El Liceo de Manila"; circular letter to Philippine teachers used in giving directions for work in collecting exhibits; bulletins of the Philippine Bureau of Education; the Philippine Normal School Prospectus for 1903-04; prospectus of the Philippine School of Arts and Trades for 1904-05; prospectus of the Philippine Nautical School for the year 1904-05; industrial exhibits of Philippine schools at the Louisiana Purchase Exposition; courses of instruction for the Public Schools of the Philippine Islands and a special folder "Education in the Philippines," prepared by Mr. Hager.

---

### THE AGRICULTURAL AND HORTICULTURAL EXHIBIT.

CHARLES L. HALL, CHIEF.

---

The Agricultural building was sufficiently completed by March 15th to permit the installation of the thousands of exhibits, classified, so that it could have been opened to the public on April 30th. This, however, was not allowed, as the board decided not to open any building until all were ready.

The exhibits in this department are included in groups from Nos. 78 to 104, as per the official classification of the Exhibit department. The exhibits represent agriculture, horticulture and land transportation. The material on exhibition consists of all raw and manufactured product of the soil, together with crude native implements employed in the cultivation of land, as well as native machinery for the preparation of such products for the market, illustrating in as complete a manner as possible the old processes of raising the various crops of the islands.

Among the cereals are to be found large and interesting collections of rice, both hulled and in the hull, representing hundreds of varieties and sub-varieties grown in the different islands of the archipelago. These varieties are divided into two groups, namely; palay de secano or mountain rice, which is cultivated without irrigation, and palay de regadio, or valley rice, which is cultivated in rice paddies and by irrigation. There will also be seen samples of wheat grown at some of the experiment stations established by the Insular Bureau of Agriculture. Samples of corn or maize, millet, sorghum, peas, beans and lentils are also exhibited.

There is also a large collection of all kinds of tropical and European vegetable seeds, together with seeds of various kinds of pumpkins, squash, calabash and cucumbers grown in the islands. The collection of oils and oil producing seeds consists of samples of sesame, peanut, castor, pili, palo maria, tangan-tangan, tuba-tuba, copra or dried cocoanut, etc.

The delicately scented Ylang-ylang extract is also included in the above group, being extensively used as a base for the best Parisian perfumes. Flours and starches of various kinds, such as are produced from rice, manioc, sweet potatoes, palms, etc., are represented. Samples of all kinds of condiments and peppers, also achuete and indigo, are extensively exhibited.

The collection of wild and cultivated fruits, vegetables and tubers preserved in formaldehyde is a very interesting one and undoubtedly the first collection of its kind seen in America.

Samples of unrefined sugar of different grades, together with the preserved cane are also displayed, with the crude native machinery used in the extraction of the sugar.

Samples of alcohol, wines and vinegar produced from various palm saps or grain and sugar are well represented. The collection of fibers and textiles is a very complete one. It consists of several varieties of shrub cotton in white, yellow and brown varieties, together with the cloth made of this cotton by natives on crude hand looms, and the tree cotton variety, which is principally used by the natives for filling pillows. In the fiber exhibit are samples of hemp, maguey, pina and textile barks of all kinds, together with samples of cloth and rope manufactured from them.

The honey and beeswax exhibited are largely produced by wild bees. Church tapers manufactured from this wax are also a part of this group.

The large collection of tobacco exhibited in this building is of a very high grade, the best qualities coming from the provinces of Isabela, Cagayan and Abra.

The native agricultural tools and implements, sugar cane mills, wagons, sleds, and all kinds of native crude machinery are illustrated both in natural sizes and models.

There is also a good display of the soils best adapted to the raising of the different crops of agricultural products. There is also exhibited a very fine collection of models and natural size conveyances representing land transportation.

A large collection of native hats and baskets in endless variety is scattered throughout the building.

The conservatory built in the center of the building on the south side contains a very interesting collection of orchids, cycas and some tree ferns from the Philippines.

Owing to the unusually large amount of material, every available space has been occupied, leaving barely enough room for visitors to circulate through the building.

Some of the larger agricultural implements are displayed on the lawn

in front and in the rear of the building as no available space could be obtained inside.

Exhibits are cared for in ninety-three show cases, forty inches wide, seven feet high and one foot deep; six show cases forty feet wide, seven feet high and two feet deep; four show cases six feet wide, seven feet high, two feet deep; five square show cases six feet wide, seven feet high and six feet deep. Other exhibits too large to be placed in show cases are cared for on four hundred and twenty feet of double shelving and on tables eighty feet long by twelve feet wide.

The exhibits in this building number over twenty thousand individual pieces, the duplicates being exhibited under the same number. The work of labeling the exhibits in the Agricultural building was accomplished by July 10th.

In making decisions as to the proper awards to be given exhibitors, the Agricultural jury was very careful in its selections for high awards and comparatively few were allowed. The following number of awards were granted in the Department of Agriculture:

Nine grand prizes, fifty-four gold medals, one hundred and seventy-nine silver medals, one hundred and forty-five bronze medals, four hundred and sixty-three honorable mentions.

In the division of land transportation, the following awards were granted: Five gold medals, six silver medals, eight bronze medals, three honorable mentions.

The live stock department was represented in a very small way, and the few exhibits consisted in publications on animal diseases. Only three awards were granted.

In the Department of Horticulture, the exhibits are all in very good order and have proved to be exceedingly interesting to the general public who day after day fill the building to its utmost capacity.

The original intention of bringing before the American public and the world at large all the natural resources of the Philippine Islands has been well carried out in this exhibit and beneficent results will follow.

---

## FISH AND GAME AND WATER TRANSPORTATION.

JOSE QUADRAS, CHIEF.

---

The Fish and Game building is situated in the extreme northern part of the Exposition grounds, and overlooks Arrowhead lake. The material used

in its construction, with the exception of the floor, is entirely Philippine, consisting of nipa, palm-leaf thatch, bamboo, rattan and palm stems. The structure is in the shape of the letter "T," has a floor space of forty-four hundred square feet, and represents a "Camarin" or Philippine warehouse.

The building is divided into two sections; the first containing a floor space of seventeen hundred square feet, is devoted to the game exhibit, while the second, containing a floor space of thirty-two hundred square feet is devoted to fish, fishing apparatus, shells, etc.

The exhibits of this department are displayed in show cases and are all worthy of critical inspection.

At the entrance is a fine specimen of the Tamarao, a species of wild buffalo (*Bubalus mindorensis*, Heude); to the left quite a complete collection of birds, well mounted and scientifically labeled, and to the right a fine collection of the enormous fruit bats, and some of the skins of these bats which are of great commercial value. Large collections of birds' eggs, attractively displayed; numerous specimens of deer and boar; carabao heads; tusks, and a few specimens of stuffed wild boars and deer; fine specimen of python, twenty-one feet long and one foot in diameter, and a collection of crocodiles, large iguanas and lizards, are prominent features in the collection of reptiles.

A numerous collection of nets for fishing and for the hunting of deer and wild boar, with some of the snares, game traps, bows and arrows completely cover and festoon the ceiling and walls. A large and complete collection of fish, including some very rare species, are contained in jars and preserved by formaldehyde.

An exceedingly fine collection of shells of the Philippines occupying a space of forty-eight square yards, was installed in the Government building for want of space in the Fish and Game building. This collection was awarded a grand prize, and a collaborator gold medal was given to Mr. Quadras, the owner and collector.

There is also a collection of corals, gorgonias or sponge-corals, having a spread of about five feet.

The collection of fishing nets, fish traps, and other apparatus contains samples of every conceivable variety used in the Philippine Islands, including a full-sized fish run in the middle of Arrowhead lake, made of bamboo and installed under the direction of Mr. Quadras, the chief, by members of the Philippines constabulary.

The water transportation exhibit is represented by numerous boats and smaller craft, from the primitive "dug-out" to the large Moro pirate junk, including also a large casco or lighter with its characteristic suali curved cover-

ing, used in the Philippines for transporting goods from the vessels in the harbor to the docks.

The large specimens form a floating exhibit on Arrowhead lake and are a sample of the successful efforts of the Philippine Exposition Board in Manila, with Dr. Gustavo Niedeflein in charge, while in the building may be seen models of the highest types of modern steamships used in the Philippines.

The awards in the department, as approved by the Superior jury were as follows:

Fish and game: Grand prizes, two; gold medals, five; silver medals, ten; bronze medals, thirty-eight; honorable mentions, two hundred and one.

Water transportation: Grand prizes, two; gold medals, three; silver medals, three; bronze medals, two; honorable mentions, thirty-three.

---

### THE MINES AND MINING EXHIBIT.

ROY HOPPING, CHIEF.

---

A most interesting exhibit of the numerous mineral resources of the archipelago was displayed for the inspection of the public.

The most important exhibits are, first, the cases of iron ores, those from Bulacan, Luzon, receiving a grand prize, three silver medals and two bronze medals.

Second, a complete coal exhibit, that from Cebu and Bataan Island each receiving a gold medal.

Third, an exhibit of gold and gold quartz, which fills five wall cases and two small table cases, and which received three gold medals, six silver medals and four bronze medals.

Gold medals were also given the exhibit of basalt for heavy foundations and heavy construction, marble from Romblon Island, a geological and mineralogical collection exhibited by the Mining Bureau and Isuan mineral water from Los Banos, Laguna, Luzon.

The exhibits which attract popular attention are the stone water filters, some of which are installed in bamboo racks, made by Filipinos, and are kept in operation continually; the Bagobo blasksmith shop, set up by a Filipino, complete in every particular; the model of an Angat iron foundry, and the complete outfit showing the Igorot method of crushing, panning and smelting gold, with the wooden "pan" and palm leaf draining buckets used, and the gold "buttons" produced.

The fossil elephant brought by Juan de Juan from the Cagayan valley in

Luzon, was kindly determined by Prof. Henry F. Osborn, of the American Museum of Natural History, to be the *Stegodon*, an extinct type and ancestor of the present elephant of Asia, proving that the Philippine Islands were formerly connected with Asia by land.

---

### ETHNOLOGICAL EXHIBIT.

DR. ALBERT E. JENKS, CHIEF.

---

The ethnological collection is displayed in the Ethnology building constructed around three sides of a square open court; the building is one hundred and nineteen feet long and eighty-eight feet wide. It consists of two long halls, one eighty-eight feet by thirty-seven, and one eighty-eight by thirty-nine feet, and a shorter connecting hall thirty feet wide and fifty-three feet long. Over one of these long halls there are two chambers about thirty feet square each. The building contains about forty-five hundred square feet of surface behind glass cases, and about ninety-four hundred square feet of open wall and ceiling space covered with museum specimens, or a total of about thirteen hundred square feet where about eighteen hundred specimens are displayed.

Case one consists of Bontoc Igorot head-axes.

Case two contains an exhaustive collection of Bontoc Igorot basket-work utensils used in domestic and field activities; also Benguet and Banawi Igorot carved wooden food bowls and spoons.

Case three consists of Benguet Igorot baskets; wooden, clay and metal pipes from the entire Igorot area of northern Luzon; and a collection of Benguet Igorot copper pots and copper mining outfit.

Case four consists of Bontoc Igorot spears, shields and carved wooden human figures.

Case five contains Bontoc Igorot material as follows: Men's basket-hats, women's head-dress beads, men's boar-tusk armlets and the ear rings and ear plugs worn by both men and women.

Case six is also of Bontoc Igorot material consisting of bark garments of both the men and the women; some garments are of whole bark, flayed from a tree, and soft like buckskin; others are woven of spun bark.

The ceilings and walls of the hall in which cases one to six are located are covered with bark and cotton clothing, made by the various Igorot people, such clothing as women's skirts and jackets, men's breech cloths and shirts and the various burial garments used upon both men and women. There is

also a very large collection of shields and spears of the various Igorot people.

Case seven holds a very exhaustive collection of Negrito materials; also some excellent Kalinga, Ibilao, Tinguian, and Mangiyan materials.

Case eight contains a fine collection of Bagobo, Manobo and Mandaya materials; it also has a collection of materials from the Tagakola, the Bilan, the Tiruray and the Subano.

Case nine contains a very complete collection of beautiful knives from the same people as are mentioned under the heading of case eight. There is also a large collection of Visayan war knives.

Case ten contains a good collection of material from the little known Tagbanua people of the island of Paragua.

Case eleven contains almost entirely Moro garments.

Case twelve contains looms filled with cloths in process of weaving; they are from a half dozen different tribes of people in the archipelago.

The walls and ceilings of the hall in which cases seven to twelve are located are covered with abaca or "hemp" garments of the people whose materials are displayed in case eight. These garments consist of pantaloons, jackets and head-cloths worn by both men and women.

The third hall contains almost exclusively, materials from the various Mohammedanized people of the archipelago, commonly called "Moros."

Case thirteen contains Moro mats, various personal ornaments.

Case fourteen contains saddles and bridles made and used by the Moros.

Case fifteen contains a collection of crude string and wind instruments gathered from many places in the archipelago; a rather complete set of Moro wooden musical instruments; also a set of bronze gongs used by the Moros as musical instruments and for beating sound messages from place to place.

Case sixteen contains brass and bronze food bowls and jars, trays used by the Moros as tables, and a very perfect collection of brass, bronze, copper and silver betel-nut boxes.

Case seventeen contains Moro knives called "kampilan" used almost exclusively by the Manguindanao and Lanao Moros of Mindanao.

Case eighteen contains beautiful specimens of Moro armor made of brass and carabao horn; it also contains a small collection of a unique knife called the "pira," and used exclusively by the Yakan Moros of Basilan.

Case nineteen contains a very rare collection of knives called the "kris"; they have a wavy blade and are used by the Samal, Manguindanao and Lanao Moros of Mindanao.

Case twenty contains Moro knives called the "barong" used almost exclusively by the Sulu or Jolo archipelago.

Case twenty-one contains Moro knives called the "kris"; they have a straight blade and are used by the Samal, Manguindanao and Lanao people.

In this hall about twenty brass cannons made and used by the Moros are displayed on floor racks. The walls and ceiling of the hall are covered with brilliant clothing woven and worn by the Moros, consisting of cotton and silk pantaloons, jackets, skirts, and head-dresses worn by both the men and the women; they contain also a fine collection of Moro shields, spears and hats.

On the second floor, in chamber four, there are displayed ten dozen frames of photographic enlargements and transparencies of various wild people in the archipelago.

In room five, also on the second floor, cases twenty-two to thirty-three inclusive contain plaster-cast masks, busts, hands and feet made of men in Bilibid prison; two large revolving standards contain about a thousand photographs of men in Bilibid prison.

Cases thirty-four and thirty-five contain skulls and other parts of skeletons of various Filipino people.

All of these specimens are displayed with the group labels of collection in place.

The Department of Anthropology received four grand prizes, fourteen gold medals, eighteen silver medals, twenty-nine bronze medals and nineteen honorable mentions.

---

## THE TYPICAL MANILA HOUSE.

VICTOR J. HALL IN CHARGE.

---

The building represents a typical Manila house, for the wealthy class, with shell windows. The exhibits contained therein are much admired, consisting in the main of handsome hand-woven fabrics and embroideries, prominent among which are the famed jusi and pina cloths and sinamay fabrics. There are besides many pieces of hand-carved furniture and works of art.

The exhibits in detail comprise the bulk of the material classed under department "D," or manufactures, a small number of textiles and embroideries being located elsewhere in the Government building, and consist of about forty-two hundred exhibits displayed in ninety-five show cases.

There are two hundred and twelve artificial flowers; eleven hundred and

seventy pieces of cotton goods; two hundred and eighty-one pieces of fancy goods; thirty-two pieces of embroidery; one hundred and thirty-three pieces of jusi cloth; three hundred and sixty-two pieces sinamay cloth; one hundred and ninety-one pieces of pina cloth and forty-two pieces of silks.

Besides the above, the walls, ceilings and show cases are decorated with seven hundred and forty-eight hats; one hundred and sixty-three baskets; five hundred and seventeen mattings, and two hundred and thirty pieces of pottery, and in the rooms are fifty pieces of carved furniture. A number of the less important paintings are also on exhibition here.

Following is the list of awards in the Manufactures department, as approved by the Superior jury:

Grand prizes, one; gold medals, sixteen; silver medals, sixty-two; bronze medals, two hundred and thirteen; honorable mentions, twelve hundred; total number of awards, fourteen hundred and ninety-two.

---

### THE BATTALION OF PHILIPPINE SCOUTS.

MAJOR WM. H. JOHNSTON, COMMANDING.

---

The battalion reached St. Louis April 17th, under the command of Major Frank de L. Carrington, 1st U. S. infantry, and Major Johnston assumed command that date in compliance with orders of the war department. It went into camp, previously prepared by Major Johnston, near the Philippine reservation, the men in conical wall tents floored, and the officers in hospital and wall tents floored.

A mess hall and kitchen equipped with army range, tables, etc., and a latrine containing eight seats and two urinals (sanitary trap plumbing connected with city sewer system), had been built for each company; six hospital, two wall and one conical wall tent, floored, besides bath room and latrine, were used as field hospital of twelve beds. Two store tents floored were equipped for officers' mess. A frame building of three rooms, one story, was built for use as subsistence and quartermaster store house. Subsequently, a stable of nipa roof, no walls, was built, and accommodated four horses and two mules, the transportation given the camp by the quartermaster department. Plank walks were laid through camp and a road built to connect all mess halls with the store house at the edge of the Philippine reservation. By

the labor of troops the camp site was cleared of brush and stumps, and a wire fence built to enclose the camp and its parade.

About July 1st, a pavilion was built, 40x75 feet, surrounded by a porch ten feet wide. The supports and floor are of pine and roof and walls of bamboo and nipa. This building has been used for religious services, school, band practice, several entertainments and the reception of Exposition visitors. Its expense was provided for by appropriation of the Philippine Commission.

From April 17th to July 2nd, by order of the secretary of war, a detail of men varying from one hundred and eighty at first to ninety later, was placed at work under the Philippine Government Board erecting buildings of native construction in the Philippine reservation, being paid for this extra duty by the Board.

During the entire time of its station here the battalion has had a daily parade and exhibition drill each evening about sunset, and one hour drill in the morning for instruction, besides a half hour drill during the day for exhibition.

Besides the regular camp guard, the battalion since June 22nd has placed sentinels daily (except Sunday) over seven of the government buildings in the Philippine reservation.

At the request of the president of the Louisiana Purchase Exposition, and in compliance with orders from headquarters, northern division, the battalion has participated in many street parades within the Exposition grounds. For several weeks, in compliance with request from the same source, parade and drill was had each Wednesday evening at Plaza St. Louis. This was discontinued September 14th under orders of the secretary of war.

The health of the command has been excellent, the average monthly sick report being as follows:

April-----	2 $\frac{1}{10}$ %	July-----	3 $\frac{4}{10}$ %
May-----	1 $\frac{3}{4}$ %	August-----	2 $\frac{1}{10}$ %
June-----	1 $\frac{2}{10}$ %	September-----	1 $\frac{4}{10}$ %

No deaths have occurred at the camp.

At Caloocan, P. I., each man was weighed in February, 1904, and at this camp each man was weighed in similar clothes in September, 1904.

The result showed the following gain per man:

4th company-----	3.41 pounds
24th "-----	4.02 "
30th "-----	3.77 "
47th "-----	1.07 "
Average-----	3.06 "

By order of the war department the enlisted men of this battalion have been paid at the rate of pay for American soldiers without increase for length of service, and have received the same rations and clothing allowance as

American soldiers since their departure from Manila, P. I., in February, 1904.

The fact that they have gained flesh in a strange climate while rendering more than usual military service and fatigue, indicates that the Filipino would gain in stature and strength if fed upon the American ration.

On September 30th, the period of enlistment of three hundred and one men of the command expired. By order of the war department, all men (one hundred and thirty-seven) who declined to re-enlist were sent to Manila, P. I., September 25th, to be discharged there. The remainder (one hundred and sixty-four), were re-enlisted here for a period of three years.

On October 22nd, eight men were discharged and all re-enlisted.

Twenty men will complete their period of enlistment before December 31st, but almost all promise to re-enlist.

The loss of one hundred and thirty-seven men reduced the strength for exhibition drills and parades and increased the guard and fatigue duty of those who remained.

Discipline has been excellent, very few being tried by court martial, or confined, and the general good behavior in and out of camp has been repeatedly the subject of favorable comment by visitors to the Exposition.

The parades and drills have been attended by thousands of visitors, who generally applauded the proficiency of the men.

It is believed that the service of this battalion here has won for Filipinos generally the favorable opinion of the million of visitors who have seen them, and inspected their well-kept camp.

The battalion is composed of the following companies:

4th company,	Macabebes-----	strength	104
24th	" Ilocanos-----	"	104
30th	" Tagalos -----	"	104
47th	" Visayans -----	"	104

These were organized into a battalion of infantry by G. O. No. 59, war department, 1904.

The band of battalion, numbering forty-five musicians and composed of men detailed from the companies, has under the direction of Ernest G. Fisher attained remarkable efficiency and has materially assisted the battalion at parades and ceremonies. The band has also played concerts for the entertainment of visitors at the request of the Philippine Exposition Board.

The following officers have been on duty with the battalion since its arrival at this camp:

Major Frank de L. Carrington, 1st U. S. infantry.

Major W. H. Johnston, Philippine scouts.

Chaplain J. C. Granville, 14th U. S. cavalry.

First Lieutenant W. C. Johnson, 26th U. S. infantry  
First Lieut. T. B. Taylor, 11th U. S. cavalry.  
First Lieutenant J. C. Brady, 4th U. S. infantry.  
First Lieutenant C. D. Buck, assistant surgeon, U. S. army.  
First Lieutenant Boss Reese, Philippine scouts.  
First Lieutenant Wesley King, Philippine scouts.  
First Lieutenant J. A. Paegelow, Philippine scouts. ✓  
First Lieutenant J. De Court, Philippine scouts.  
First Lieutenant C. Dority, Philippine scouts.  
First Lieutenant F. L. Frisbie, Philippine scouts.  
First Lieutenant E. Dworak, Philippine scouts.  
First Lieutenant R. Hoover, Philippine scouts.  
Second Lieutenant R. Dickson, Philippine scouts.  
Second Lieutenant G. McCue, Philippine scouts.  
Second Lieutenant A. Shea, Philippine scouts.  
Second Lieutenant C. Patajo, Philippine scouts.  
Second Lieutenant, C. Platt, Philippine scouts.

---

### THE PHILIPPINES CONSTABULARY BATTALION.

MAJOR AMOS D. HASKELL, COMMANDING.

---

Upon arrival of the constabulary at St. Louis, April 20th, the organization consisted of twelve officers and two hundred and eighty enlisted men. On the 21st of April the organization was assigned to barracks in the building known as the Constabulary Cuartel. From the time of the arrival until the various nipa buildings of the Philippine Exposition were completed, about seventy men were detailed daily from the battalion to participate in the construction of same. In addition to the regular drills of instruction, a dress parade, followed by an exhibition rifle and calisthenics drill has been given daily, except Sundays, usually in the afternoon.

During a greater part of the time since the opening of the exhibit buildings, a force of eight men has been detailed daily as watchmen in the same. These men form a part of the regular guard, but do not carry arms, nor are they authorized to make arrests, being posted in the buildings to prevent the violation of rules of the Exposition Board.

Since arriving in St. Louis the band has performed regular military duties, playing for all parades and exhibition drills. It has also furnished music for

the opening ceremonies and other official functions at many of the state buildings. Since June 18th, it has played daily evening concerts and tri-weekly day concerts in the band stand of the Philippine reservation. It made a two days' trip to Louisville, Kentucky, and a three days' trip to Chicago and Milwaukee, playing at the former place at the conclave of Knights of Pythias, and at the latter, at the Wisconsin State fair; both trips being for the purpose of advertising the Philippine Exposition.

In connection with the duties performed as herein stated, the battalion and band participated in the following parades:

May 30th, 1904, Memorial Day at St. Louis; June 8th, Liberty Bell parade; July 4th, Independence Day; August 13th, Philippine Day; August 20th, Pennsylvania Day; September 1st, Indiana Day; September 12th, Maryland Day; September 14th, Louisiana Day; September 15th, St. Louis Day; September 17th, Massachusetts Day; September 22nd, Arkansas Day; September 30th, Kansas Day.

The Hospital corps, consisting of Lieutenant Cameron and two enlisted men, has been on permanent duty at the Philippine reservation hospital since its opening July 19th. Previous to that date a hospital was maintained in the Constabulary Cuartel.

Captain Laurence E. Ross and Lieutenant Charles H. McIlvaine were relieved on July 1st and August 28th, respectively, and returned to the Philippine Islands. Captain Ira Keithley deserted the service September 2nd.

The organization on September 30th consisted of the following: Major Amos D. Haskell, commanding; First Lieutenant N. S. Gilpin, adjutant; Second Lieutenant J. S. Manning, supply officer; First Lieutenant A. A. Cameron, medical inspector; Captain Ralph W. Jones, commanding company B; First Lieutenant Lucien R. Sweet, commanding company A; First Lieutenants Felix Llorente, C. E. Bennett, C. M. Pendleton and Modesto Colmenares and Third Lieutenant James L. Wood were on duty with the battalion.

First Lieutenant Walter H. Loving, commanding band; Captain F. E. Cofren, in charge of Constabulary exhibit.

The enlisted force of the organization was divided as follows:

Non-commissioned staff, two; hospital corps, two; company A, ninety-eight; company B, ninety-eight; band, eighty.

Three enlisted men have died since the arrival in St. Louis; one of pneumonia, one of suicide, and one from acute cardiac dilatation. On September 30th, but five enlisted men were sick in the hospital.

## THE WAR EXHIBIT.

CAPTAIN F. E. COFREN, CHIEF.

This exhibit was originally in charge of Captain F. E. Cofren, of the Constabulary, who was temporarily relieved by Captain H. J. Castles, October 10th.

The exhibit is in two parts, United States army, and Philippines Constabulary, the former on the west side within the Manila wall, and the latter within the east wall of the same unique structure.

The United States army exhibit was opened on July 4th, being composed almost entirely of cannon, rifles and revolvers captured by and surrendered to the United States in the Philippines and furnished from the office of the chief ordnance officer of the division of the Philippines.

The articles comprising the Constabulary Exhibit may be mentioned as follows:

Filipino flags and banners; weapons of all descriptions from the spear and shield and bow and arrow of the mountain people to cannon and rifles used by the insurgents and their successors; insurgent and "pulajan" uniforms; photographs illustrating past political conditions in the Philippines; table tops and other furniture showing the excellence of Philippine timbers; valuable canes of wood and horn; musical instruments of odd and antique type; saddles of unique native construction; pair of silver-mounted bridles, the property of Colonel Bandholtz, U. S. A.; specimens of shell and coral formation; specimens illustrating native skill in woodcarving; models of houses, boats and agricultural implements; a varied display of native hats; portrait and landscape paintings; many miscellaneous articles, such as objects of the hunt; shields and ancient Filipino armor; bells; old printing press of the revolutionary government, etc. These articles are such as have been captured by the constabulary or surrendered to it, gift or loan collections from constabulary officers and soldiers and similar collections from numerous friends of the corps, American, Spanish and Filipino.

In all over three thousand exhibits have been placed in numerous show-cases and on the walls and ceilings.

The general decoration of the walls is effected by the liberal use of rifles, spears and shields, bows and arrows, native hats, paintings, photographs and flags.

Special attention has also been given to the showing of bolos, these being displayed in cases by collections. There is a case showing different types of revolvers, one of miscellaneous ammunition, Igorot pipes fill a case and Igorot hats "pockets" another, while valuable collections of Igorot articles are likewise displayed amidst the above-mentioned exhibits.

Announcement cards inform visitors to this exhibit of the nature of the constabulary and the public is encouraged to make inquiry, either concerning relatives or friends in the constabulary service or touching the organization and administration of the force.' Maps of the Philippine Islands are displayed and the exhibit includes a complete set of Philippine political literature, from which extracts on particularly important phases of insular development are conspicuously posted in typewritten form for the information of visitors, and for the stimulation of their interest in the Philippines and the Filipinos. Bound copies of the reports of the Chief of Constabulary serve to convey most explicit and valuable information concerning the constabulary.

---

### THE VISAYAN VILLAGE.

M. R. HEALY, MANAGER.

The Visayan village is situated on Arrowhead lake and covers about four acres. It is a typical Filipino village consisting of an administration building, containing office, store rooms, and a large reading room where the Manila papers, with some Chinese and Japanese papers are on file; also a theater, market, Catholic church, and eight native houses with work rooms arranged underneath. There is a large cuartel built in the village for the use of the natives during the cold weather, which contains a kitchen, dining room and toilets, with sleeping rooms upstairs.

The village is arranged in the form of a plaza with one side street of native houses, all the buildings in the village with the exception of the church and the cuartel being built of bamboo and nipa. The village has two entrances, which are opened daily at 9 a. m.

In the market, the principal manufactured articles of the Philippines are on sale, and everything sold can be seen made by the natives in the village. In one house there are four jusi looms, in the next three pina looms; another has two sinimay looms; in the other houses, four hat makers manufacture hats, four mat makers show how mats and baskets are made; five natives are employed in making canes, wood-carvings, and novelties.

There is a family of fishermen who illustrate the methods of fishing practiced in the Philippine Islands. Two carabao and all of the various vehicles used in the Islands show the manner of transportation.

The hours for working are from 9 a. m. to 6 p. m., and all the natives are employed during this time.

The church was built to accommodate the natives of the village, who are all Roman Catholics, and services are held in it every Sunday by one of the Jesuit Fathers of this city. The church was dedicated by Cardinal Satolli, assisted by Archbishop Glennon, and has proved a great attraction to visitors.

The theater opens at 11 o'clock a. m., and performances lasting half an hour are given hourly until 6 p. m. The theatrical troupe consists of an orchestra of sixteen pieces, twelve singers and six dancers. All the music, songs and dances are typical of the Philippine Islands, the concluding number on the programme being the "Star Spangled Banner," sung in English by the entire company. This number has always been highly appreciated by the audience.

The health of the natives has been excellent, but one death, that of a six-weeks-old baby, having occurred in the village. There have been four births.

---

## THE MORO VILLAGES.

FREDERICK LEWIS, MANAGER.

---

On December 1st, 1903, Mr. Lewis entered into a contract with the Insular Government for the collecting and conducting of a Samal Moro exhibit at the Louisiana Purchase Exposition, St. Louis, such exhibit to consist of a representative group of Samal Moros engaging in their daily pursuits while in attendance at the Exposition, and a collection of their arms and household effects.

Immediately thereafter the work of collection was begun, which resulted in securing a characteristic display of Moro arms, weapons, fishing gear, mats, native fabrics, wearing apparel, raw material, and other requisites too numerous to mention in detail, and of persuading desirable natives to enter into contracts for attendance at the Exposition in various capacities.

This work was successfully accomplished, the party consisting of forty persons, as follows: Nineteen men, eleven women, five boys, five girls; the party was headed by Datto Facundo, a brother of Rajah Muda Mandi, of Zamboanga, and but for the efforts of the former, who consented to accompany the people, as well as of the latter, it would not have been possible to induce these natives to leave their homes in the Philippines.

Even while in Manila the natives proved a source of curiosity to the inhabitants of the city, and attracted considerable attention. A number of ex-

hibitions were given there for the benefit of the various officials, and the natives themselves were given an opportunity of seeing their first city of any size, and of becoming accustomed to the ways of modern civilization.

On arrival at Manila, the party encountered the Lanao Moro exhibit, under the management of Mr. C. H. Wax, the natives composing this exhibit having reached the city a few days previous. From this time on the Samal and Lanao Moros were thrown in contact with each other continuously and traveled together, although maintaining but little of any intercourse the one with the other.

Upon arriving at St. Louis, sites for the respective Moro Villages fixed upon to the right of the Walled City and along the margin of Arrowhead Lake. Material for the native houses was immediately hauled and placed on the ground, and work commenced by the Moros in erecting their villages in accordance with their own peculiar ideas and style of architecture. The shore of the lake was covered with sand and gravel in an attempt to reproduce the sea beach as nearly as possible, the result being fairly satisfactory and realistic. The Samal Moro Village consisted of seven native dwellings for the accommodation of the natives; an administration building in which was installed the exhibit of arms, cloth, etc., and a theater in which performances were given at stated intervals, such performances consisting of the various native dances peculiar to these people.

The native houses of the village, counterparts of those found in Magay, the Moro section of the town of Zamboanga, Mindanao, P. I., were constructed out over the water of the lake on piling driven by hand by the natives, bamboo platforms leading out to them. Every detail and characteristic of Samal Moro architecture was carefully adhered to, the dwellings themselves being complete in every respect.

As at home, the materials entering into the construction of these houses consisted of bamboo, nipa and rattan; the first being used entirely for the framework of the houses, the second for the sides and thatching, and the last mentioned used in fastening the structure together, no nails entering into the construction of the dwellings. The work was done by the men of the village, and by them alone.

The native dwellings of the Samal Moro Village were completed early in the month of June, and the natives immediately took up their residence therein. The administration and exhibit building, likewise intended for the accommodation of the natives in the event of cold weather, while incomplete on the date the village was thrown open to the public, nevertheless admitted of the installation and display therein of the exhibit of arms, weapons, utensils, wearing apparel, native fabrics, mats and other articles pe-

culiar to and manufactured by the people of the Samal-laut tribe of Moros. The theater, intended for the convenience of visitors while witnessing the native dances was also unfinished and incomplete at the time of the opening.

On June 18th, by direction of the Philippine Exposition Board, the Samal Moro Village, in common with all other native villages, was thrown open to the public, and, with the exception of Sundays, has ever since so remained.

In addition to illustrating the daily home life, dwellings, household furnishings, and the natives themselves dressed in their native garb, the public has been afforded the opportunity of seeing them engaged in their native industries and occupations; their boats and fishing tackle were placed on inspection and in actual use, dances have been given at stated intervals throughout the day, native music has been rendered continuously from the opening to the closing hour, daily, the children have disported themselves in their boats and in the water from morning to night, and every possible attraction has been introduced that might prove interesting and instructive to visitors to the village.

Work on the Lanao Moro Village was commenced at the same time as that upon the Samal Moro Village, the village consisting of eight native dwellings, an administration building, and a native theater; the native houses were built in accordance with the prevailing style and ideas of the inland Moros, differing materially in appearance from those of the Samal Moros.

It was originally intended that each of the Moro Villages should constitute an exhibit in itself, but it was soon deemed advisable to consolidate the Lanao Moro Village with the Samal Moro Village.

On August 7th, in response to a telegram extending an invitation to visit President Roosevelt, the manager conducted Datto Facundo and two followers to Washington, D. C. After a short interview with the president at the White House, in which the datto assured the president of the loyalty of himself and people to the United States government, the party was shown through the various government buildings, the astonishment of the natives being too great for expression in adequate terms.

Not until about the 17th of August were sufficient raw materials released by the customs authorities to admit the illustrating of the cleaning and polishing of pearl shells, the weaving of native fabrics, and the braiding of fancy colored mats, all of which are features of an interesting nature which should have been shown the public from the very beginning.

In fulfillment of the assurances and promises made to the natives in inducing them to attend the Exposition, the food furnished them has been, as nearly as possible, the same as that to which they were accustomed at home. No complaints have been made in this respect, either as to the variety, quality or quantity of the comestibles provided for their use.

The average daily cost of subsistence per capita, from May 10th to September 30, 1904, inclusive, has been as follows: Samal Moro Village, 0.14698; Lanao Moro Village, 0.14116.

The natives of both villages have attracted a great deal of interest on the part of scientists, who have availed themselves of this opportunity for studying their many peculiarities of person, habits, customs, dress, and mode of living.

---

### THE IGOROT VILLAGE.

DR. T. K. HUNT, MANAGER.

---

This village has proved to be the most interesting of the group to visitors if gate receipts are an indication, as it has been the greatest source of revenue to the Exposition Board. Under a contract signed and approved at Manila July 25, 1903, Dr. T. K. Hunt, formerly lieutenant-governor of the Province of Bontoc, got together and brought to the St. Louis Exposition, for the Philippine Board, one hundred and fourteen natives, consisting of Igorots and Tinguianes.

In this exhibit the people live just as they do at home. Every day are shown blacksmithing, weaving, metal working and copper and ore reduction, also dancing every hour of the native dance of each of the three tribes, Bontoc, Suyoc and Tinguiane. At intervals spear throwing and native ceremonies are to be seen. All the younger Igorot attend school one hour each morning at the Philippine Model School, and one hour in the afternoon under the direction of the Berlitz School of Languages. There is a two hours' singing lesson in the afternoon for the younger members. They have learned to sing all the national airs in English, and take great interest in the work.

The houses of the chiefs and the principal men are connected with the manager's office by telephone, which they use and appreciate. The chiefs also have typewriters and are learning to use them.

All of the Igorot have saved money, from one hundred to five hundred dollars each. Some have learned to carry on a conversation in the English language. A few can read and write.

---

THE NEGRITO VILLAGE.VALENTIN SEMILLA GUEVARA, MANAGER.

---

The Negrito Village contains the lowest type of inhabitants of the archipelago. They are the most primitive, and are regarded as the true aborigines.

The buildings in the village are, like those in the other villages, characteristic of the life of these diminutive people. The natives of the villages are equipped with their household implements used in their daily life, including arms and apparatus for fishing, objects used in ceremonies, dances and music, and instruments used in making baskets, bows and arrows, combs, in planting rice, etc.; the whole representing an exact imitation of their surroundings in their home life.

The daily program, as presented, is as follows: The celebration of marriages like those commonly celebrated among the Negritos of the forest; celebration of annual memorials for deceased relatives with their accustomed ceremonies; the celebration of a public meeting for the election of chiefs for their villages; general dances in which all sing what is called "Amba;" shooting of arrows by all male Negritos; duet of a Negrito with a cane flute called "Bansi," and a female Negrita singing; the same with the "Barimbaw," a musical instrument made of bamboo; planting rice in dry land by means of the "Bagal" under the song of the "Barimbaw;" making fire by means of bamboo sticks; collecting bees' honey by means of a bamboo called "Cana-Boja;" hunting of wild hogs or "Jabali" by means of the bating with dogs; hunting of "Jabali" without bating and without dogs; making of combs and bracelets by the women and arrows by the men; weaving of "Petates" or "Bayones" by women with leaves of the "Buri" palm; pounding and cleaning rice; preparation of the poisonous "Nami;" preparation of rattans for binding purposes, and the making of "Bilaos" and bamboo baskets, etc.

---

THE BAGOBO VILLAGE.C. L. CROWNER, MANAGER.

---

The Bagobo Village was not opened until September 12th, the members being detained several weeks at the St. Louis quarantine station on account of a case of smallpox which developed before their arrival. Their manager,

Mr. Carson Calhoun, died of the disease, as did also several of the natives.

The routine work and daily exercises in the village are as follows:

Commencing at 9:30 a. m., the rendition of native music begins and is kept up throughout the day. Native dances likewise peculiar to these people, take place every half hour, the first dance at 10 a. m. and the last at 5 o'clock in the afternoon. These dances consist of the tribal dance by the men; the women's tribal dance; a spear dance and a bolo dance. Each performance is concluded by the introduction of Datto Bulan, who exhibits his wonderful growth of luxuriant hair, and by an explanation of the meaning attached to the colors of the costumes worn by the different men of the tribe.

Upon the conclusion of the program of dances, the public is invited to inspect the native dwellings and the furnishings thereof, all of which are distinctive and characteristic of the Bagobos, as well as the various native traps manufactured and used by the people, the same consisting of a monkey trap, a chicken trap, a carabo trap, and a wild hog trap, the workings of each being explained in detail to the public.

The weaving of the different native cloths and fabrics is illustrated for the benefit of visitors, full explanations being given with respect to the materials entering therein, the dyes used, and the method of securing the same.

The manner of entertaining a Datto is also demonstrated, music on the native guitar being rendered by the women, who at the same time execute a peculiar dance.

---

## PUBLICITY AND EXPLOITATION.

---

The question of publicity and exploitation was one to which the Board gave early attention, and in order to advertise the exhibit properly and attract the interest and attention of the public, two departments were created, one known as "Publicity" and the other as "Exploitation," both having the same end in view, but along different lines. The former department was placed in charge of Mr. Herbert S. Stone, and the latter in charge of Mr. Alfred C. Newell, both experienced newspaper men. The two departments were later consolidated.

It was believed from the outset that the best results were to be obtained—not from an attempt to bring people to St. Louis, which was the primary object of the World's Fair exploitation, but to get people who had come to

St. Louis to visit the Philippine exhibit. For this reason the Publicity department constantly labored with the local press. On several Sundays, St. Louis papers have contained a total of over three columns of Philippine matter and hardly a week day has passed without the appearance of some paragraph relating to the exhibit. Ninety per cent. of all the Philippine matter appearing in the local papers was written in the Publicity department. In placing this material, the office was greatly aided by the use of photographs. There were taken for this department two hundred and seventy-three negatives and no less than forty-nine hundred prints. These photographs were widely distributed among newspapers and magazines of the better class and have been very generally reproduced. For the smaller papers, a number of coarse-screen half-tone cuts and zinc etchings were prepared and loaned to carry a general story. In this way, a three-column article, sent out from this department was printed in over four hundred country papers. The General Press Bureau of the Louisiana Purchase Exposition has sent out Philippine matter to the extent of over a column a week; it has regularly included special Philippine stories prepared by the Publicity department in its list of papers, numbering twenty-five hundred, taking plate-matter, and in addition sent to syndicates and selected lists, stories and pictures covering many features of the exhibition—queer habitations, music, babies, sports, and religious beliefs of the various tribes. In this way, and at practically no expense to the Philippine Exposition, there was covered a wide range of subjects tending to inspire interest and increase income. The space received, so far as shown by clippings makes an average of over fifteen columns a day and a total of more than two thousand columns since the middle of May.

On September 15th, the Department of Exploitation was discontinued. Previous to that date, it had prepared and distributed through the mailing division, a million copies of the two booklets describing the Philippine Exposition, 120,000 copies of a bird's-eye view of the reservation, a large number of special articles for trade purposes and through the co-operation of the World's Fair authorities, 200,000 hand bills, 10,000 twenty-four sheet posters and 50,000 special programs of events on Philippine Day, August 13th.

The Exploitation department also issued teachers' tickets to the number of 600 a week during July and August, prepared articles for the Official Guide, the "World's Work," the "Booklovers Magazine," and other magazines.

The Publicity department alone since September 15th has had charge of all passes issued, and of the supervision of the lecturers on the grounds.

Even before the organization of the Publicity and Exploitation departments, the world had already been informed of the dog-eating tastes of the

Igorot and to this fact may be attributed no small part of the income of the Philippine Exposition. Owing to a feeling that this topic might safely be left to the thoughtful care of the political press, the advertising departments have avoided official mention of it and have endeavored to call attention to the more worthy characteristics of the natives. It is not true that the savages have been unduly exploited at the expense of the more dignified exhibits, but no amount of emphasis on commercial exhibits, constabulary drills and scout parades has distracted attention from the "dog-eaters" and "head-hunters."

#### DISTRIBUTION OF PUBLICATIONS.

Under the direction of the Director of Exhibits, the following publications were distributed among prominent visitors, members of international congresses, foreign and state commissions, prominent journals, libraries, universities, academies, museums, members of congress, consuls, diplomats chambers of commerce and other trade organizations:

Official handbook of the Philippines.

The Philippine Exposition, World's Fair, St. Louis, 1904.

Educational Work in the Philippines.

Report of the Philippine Weather Bureau.

Report of the Auditor of the Philippine Islands for the fiscal year ended June 30, 1903.

Second special report of W. Morgan Shuster, Collector of Customs for the Philippine Islands, covering the period from September 1, 1902, to October 8, 1903.

The Far Eastern Review, Vol. 1, Nos. 2 and 3.

Census Bulletin No. 1, Population of the Philippines.

Census Bulletin No. 2, The Climate of the Philippines.

Census Bulletin No. 3, Volcanoes and Seismic Centers of the Philippine Archipelago.

The Gutta-Percha and Rubber of the Philippine Islands.

Trypanosoma and Trypanosomiasis with Special Reference to Surra in the Philippine Islands.

Circular Letter of Governor Taft and Information and Instructions for the Preparation of the Philippine Exhibit for the Louisiana Purchase Exposition.

Discurso Pronunciado por Gustavo Niederlein, Comisionado Especial y Miembro de la Junta de la Exposicion en la Apertura del Museo Permanente de Manila el 23 de Febrero de 1903.

Report of the Bureau of Forestry of the Philippine Islands, 1902.

Report of the Bureau of Forestry of the Philippine Islands, 1903.

A Dictionary of the Plant Names of the Philippine Islands.

Exposition Number of Justicia.

Exposition Number of the Sunday Sun.

Important Philippine Woods.

Botanical Investigations in Java.

New or Noteworthy Philippine Plants.

The Forest Manual.

Journal of Agriculture Tropicale.

Philippine Islands Forestry and Timber Exhibit.

### THE RESERVATION HOSPITAL.

The necessity of a well-equipped hospital on the Philippine Exposition Board's reservation early became apparent. This does not mean that health conditions have been bad. On the other hand they have been exceptionally good, but with nearly thirteen hundred natives of the Philippine Islands on the reservation, all in a strange land and under climatic conditions to which they are not accustomed, made the question of the preservation of their health one of prime importance.

Dr. Llewellyn P. Williamson, of the U. S. Army Medical corps, was first assigned as medical officer in charge of the hospital, and was succeeded later by Dr. Carrol D. Buck, also of the Army Medical corps. Dr. Cameron, of the Constabulary battalion has also been on continuous duty at the hospital.

The consolidated medical report for the months of July, August and September is as follows:

	ADMITTED	RECOVERED	DIED	REMAINING	OUTSIDE TREATMENT
Scouts-----	51	47	0	0	4
Constabulary-----	122	98	3	21	0
Negritos-----	0	0	0	0	0
Igorot-----	15	9	2	4	0
Moros-----	11	9	2	0	0
Visayans-----	13	13	0	0	0
Bagobos-----	10	7	3	0	0
Students-----	30	30	0	0	0 X
Americans-----	20	15	2	3	0
Total-----	272	228	12	28	4

Carson Calhoun, American, and three Bagobos died at St. Louis Quarantine station where they had been sent suffering from small pox contracted before arrival. One American employee died of abscess of the liver at Eureka Springs, Ark., where he had been sent for a change of climate; one constabulary died of suicide from gunshot wound, and one of pneumonia; one Igorot died of pneumonia and one of beri-beri. Two Moros died of beri-beri.

The condition of the Philippine scouts has been excellent in every respect. Their camp is a model from a sanitary standpoint and the sick report very low. Chicken pox and mumps with which both the scouts and constabulary were early infected have entirely disappeared.

The sanitary condition of the Cuartel, in which the constabulary are quartered, has never been very good, owing partially to faulty construction and to lack of care and proper police. Changes were made to remedy the faults of construction. The presence of a number of cases of beri-beri among the constabulary added materially to their sick report. No definite reason can be assigned for this outbreak of beri-beri and every effort was made to ascertain its cause.

In spite of their primitive way of living the Negritos have been the healthiest people on the reservation. In two months there was not a case serious enough to be taken on sick report.

Except for a number of cases of beri-beri the health of the Igorot has been good. The origin of this beri-beri, like that in the constabulary, is unknown, and while several cases have recovered, there have been no new ones for some time.

There have been no cases of serious illness among the Visayans. There has been quite a demand from them for cathartics, tonics, etc., but no sickness of moment.

Dr. Williamson inspected the Bagobos on their arrival in St. Louis, and found one of them suffering from small pox. To prevent the introduction of infection into the reservation, arrangements were made with the city of St. Louis to care for these people at the quarantine station. The wisdom of this was demonstrated by the appearance of three more cases. When the danger of infection had passed the people were brought to the reservation and have remained in good health since.

On August 5th, one hundred students arrived and were quartered in the Cuartel. They were much crowded, and to relieve the congestion, three tents were erected for their occupancy. A case of measles appeared shortly after their arrival and was sent to the Mayfield hospital as it could not be isolated here. A number of these students suffered from minor gastric ailments but no serious sickness.

The most serious cases with which the hospital has had to deal have been among the Americans employed on the reservation. A number of very serious surgical and medical cases were received from this source. These people were charged a fee of one dollar a day for hospital attention, and the money so derived was a small source of revenue.

A daily inspection of the grounds and buildings had been made and sanitary infractions promptly rectified when possible to do so. Prior to July 25th, all garbage was hauled to the Exposition crematory and there burned at considerable expense. On July 25th a contract was entered into with the Tamm Glue Company, whereby it obligated itself to remove all garbage free of cost. This resulted in a considerable saving to the board.

Five births have occurred among the Filipinos on the grounds, four in the Visayan and one in the Igorot village.

---

#### DISTRIBUTION OF EXHIBITS.

---

The work of distributing the 70,000 exhibits collected has been delegated to a committee authorized to act independently of the Exposition Board, the committee consisting of Captain George P. Ahern, chief of the Forestry bureau of the Philippine Islands; Dr. Gustavo Niederlein and Honorable A. L. Lawshe, members of the Board.

The committee held its first meeting November 4th and its minutes of the meeting indicate the policy to be pursued. At the request of the committee they are incorporated herein:

"The committee on the distribution of exhibits, appointed by the civil governor of the Philippine Islands, to consist of the following persons: Captain George P. Ahern, Dr. Gustavo Niederlein and the Honorable A. L. Lawshe, met for the purposes of organization this fourth day of November, 1904.

"Captain Ahern, being first named in the cablegram of authority, was made chairman, and Dr. Niederlein was chosen as secretary.

"The authority of the committee is found in section 1 of act 827, amending acts 765 and 514 of the Philippine commission, the particular paragraph cited being as follows:

"Provided, however, that from the exhibits at the St. Louis Exposition owned by the Philippine government, there shall be selected by a committee to be designated by the civil governor, all exhibits which, in the opinion of

the committee, it would be wise and not too expensive to reship to Manila at the close of the Exposition at St. Louis for use in a permanent museum in Manila;

"And provided further, That the property, effects and exhibits of the Insular Museum of Ethnology, Natural History and Commerce, established by act numbered two hundred and eighty-four (284) which have been taken over by the Exposition board, shall be returned to Manila for use in a permanent museum in Manila. (Enacted August 5, 1903.)"

The committee is also governed by the last paragraph of section 4, of act 514, which reads as follows:

"The Board (Philippine Exposition) is further authorized to acquire by purchase such exhibits as it may not be able to obtain gratuitously, and to make such a disposition of same as may seem wise, tendering them first to the Smithsonian Institution, and second to the Philadelphia Commercial Museum."

Further authority is granted in a cablegram from the governor of the Philippine Islands through the chief of the Bureau of Insular Affairs to the chairman of the Philippine Exposition board under date of October 17th, such cablegram being as follows:

"Appointed Ahern, Jenks, Lawshe, committee under provisions of act 827. Notify them of appointment; act does not contemplate their acting in advisory capacity, but makes their direction controlling; think would be very well if they confer freely with Wilson and representatives of Smithsonian Institute; commission by resolution promised Wilson he should have first choice, and Smithsonian Institute next of articles not to be returned here. Committee can deal with question of exchange and Exposition Board direct sales of articles not to be returned here."

Under date of October 31st a cablegram was received from the governor of the Philippine Islands by the chairman of the board through the chief of the Bureau of Insular Affairs, as follows:

"Niederlein has been appointed committee upon understanding that Jenks will immediately select material belonging to Ethnological Survey and other Ethnological material which he desires returned and material so selected shall be returned to Manila. Jenks will leave for Manila upon completion of this work."

#### CLASSES OF EXHIBITS.

The committee decided that exhibits shall be classified as follows:

- (1) Material to be returned to the Philippine Islands for museum purposes.

- (2) Material to be returned to the owners.
  - (a) In the Philippine Islands.
  - (c) In foreign countries.
  - (b) In United States.
- (3) Exhibits to be given to museums, colleges, etc.
- (4) Material to be sold.

Lists as above classified are now finally revised.

---

### BASIS OF ACTION.

---

As a basis of action, the committee decides upon the following lines of policy:

First: That as the law contemplates that the Smithsonian Institution shall receive the first tender of exhibits, and the cablegram from the Civil Government apparently conflicts therewith, giving to the Philadelphia Commercial Museum first choice, the committee decides that the museums shall have substantially an equal share in the distribution of exhibits where practicable, trusting that the representatives of the two museums may be able at all times to determine differences amicably.

Second: That the committee will favor such distribution as in its opinion will secure to the Philippine Islands the greatest benefit commercially, industrially, scientifically, and otherwise. That an effort shall be made to distribute the exhibits in as large groups as possible. It is the sense of the committee that the exhibits shall not be dissipated into small, valueless exhibits in different parts of the country, except where particular articles are desired by colleges for educational purposes.

Third: That in allotting exhibits to the Philadelphia Commercial Museum, the Smithsonian Institution, and other large institutions or colleges which may share in the distribution, such agreements or contracts shall be made as will entitle the Philippine Government, if it so desires, to withdraw the whole or any part of these exhibits from any museum for the purpose of making a distinctively Philippine exhibit at any time and place in the future, in order that the Philippine Government may not be put to the expense of collecting another large exhibit for future Expositions, all exhibits so removed to be later returned to their proper custodians.

Fourth: That valuable exhibits, which in the judgment of the committee are too costly to be donated, will be offered for sale at a price to be

fixed by the Exposition Board, the same to be tendered first to museums in such order of precedence as may be indicated. It is understood that the distribution to these institutions, if not bought outright, shall be made under the condition that any desirable duplicate material in their hands shall be reserved for the Philippine Museum in Manila.

Fifth: That in all cases where there is sufficient quantity of exhibit material of the same class to justify distribution to the various institutions selected by the committee and leave a surplus, the committee recommends such surplus to be sold, or exchanged for exhibits which will be of value to the Philippine Government Museum in Manila.

Sixth: That when an exhibit has been apportioned to any applicant, the Exposition Board's responsibility therefor shall cease.

That the successful applicant shall upon receiving notice of such assignment, cause the same to be packed and shipped to its proper destination without cost to the Philippine Exposition Board within thirty days thereafter.

That when exhibits are now in valuable cases or packings, such cases and packings shall be purchased from the Board at a corresponding appraised value in the discretion of the committee.

That each applicant awarded an exhibit shall take the necessary steps to secure free entry therefor.

That in all cases where in order to secure a part of an exhibit for exhibition or museum purposes it is necessary to clear the whole through the Customs House, the exhibitor may, if he so desires, clear the whole by payment of duty as required.

Seventh: That no books or valuable manuscripts shall be transferred to any institution or museum, but that all such material shall be reserved as a part of a great public library to be founded in Manila.

The Board believes that this scheme of distribution, as decided upon by the committee, is fair and just and that it is substantially as contemplated by the Philippine government.

---

## FISCAL AFFAIRS OF THE BOARD.

---

### THE DISBURSING DEPARTMENT.

CARSON TAYLOR, DISBURSING OFFICER.

---

The following statement shows the advances to the disbursing officer from the date of his appointment to September 30, 1904, as well as the

amounts disbursed to said dates. Mexican and Philippine currency disbursed in the Philippine Islands are reduced to United States currency at the proper ratio. These funds are derived solely from appropriations from the Philippine treasury and reimbursements thereto from receipts, and are exclusive of the amount received from the Louisiana Purchase Exposition Company, which was disbursed by an agent of the United States Treasury Department.

## ADVANCES.

Received by accountable warrants during fiscal year ending June 30, 1903, \$144,200, equivalent to .....	\$ 57,000.00
Received by appropriation Act 595, \$4,689, local currency, for rent of building in Manila .....	1,800.00
Received by accountable warrants from July 1st to December 31, 1903, at Manila, P. I., \$250,000, equivalent to .....	125,000.00
Received by accountable warrants, transfers and refunds from January 1, 1904, to September 30, 1904 .....	820,341.58
	<u>1,004,141.58</u>

## DISBURSEMENTS.

Disbursed in Manila during fiscal year ending June 30, 1903, \$135,976.92, local currency .....	53,643.66
Disbursed in Manila appropriation under Act 595, \$4,689, local currency .....	1,800.00
Disbursed in Manila during period from July 1st to December 31, 1903, \$225,741.05, local currency .....	112,870.52
Disbursements in St. Louis January 1st to Sept. 30, 1904 ....	805,772.85
	<u>974,087.03</u>
- Total disbursements to September 30, 1904 .....	974,087.03
Unexpended balance refunded to Insular treasurer, June 30, 1903, local currency, \$8,223.08 .....	3,356.33
Refund to Insular treasurer, June, 1904, \$1,660.00 P. C. ....	830.00
Taken up to balance on account of reduction from one currency to another .....	.01
Balance on hand September 30, 1904 .....	25,868.21

Total ..... 1,004,141.58

The work of the disbursing office is now current. All old bills are paid with the exception of a few claims the validity of which is disputed. The expenditures at this time, November 11, 1904, are on a fixed charge basis, and amount approximately to \$1,250.00 per day, including Sundays, while the daily average receipts approximate four times this amount.

## THE CASHIER'S DEPARTMENT.

A. T. RUAN, CASHIER.

The receipts of the cashier's department, by months, from the date of opening to and including September 30, were as follows:

	MAY	JUNE	JULY	AUGUST	SEPT.	TOTAL
Admissions .....	\$5,170.75	\$33,436.20	\$44,507.01	\$67,993.48	\$108,672.55	\$259,779.99
Sales .....	30.27	1,438.90	2,496.68	4,273.41	6,333.92	14,573.18
Restaurants .....	2,374.06	4,116.76	5,097.44	5,780.37	7,695.64	25,064.27
Rents .....	310.33	290.00	210.00	601.00	337.50	-1,748.83
Reimbursements ..	609.98	890.55	3,361.00	714.11	5,269.26	10,844.90
Misc. Collections ..	-----	8.68	-----	-----	-----	8.68
Total .....	\$8,495.39	\$40,181.09	\$55,672.13	\$79,362.37	\$128,308.87	\$312,019.85

The receipts from sales and admissions may be segregated as follows:

## IGOROT VILLAGE

	MAY	JUNE	JULY	AUGUST	SEPT.	TOTAL
Admissions .....	\$4,702.75	\$25,809.40	\$25,013.06	\$33,115.50	\$ 47,235.46	\$135,876.17
Sales .....	-----	603.70	241.15	233.65	193.25	1,271.75
Total .....	\$4,702.75	\$26,413.10	\$25,254.21	\$33,349.15	\$ 47,428.71	\$137,147.92

## VISAYAN VILLAGE

Admissions .....	-----	\$ 1,379.60	\$ 5,362.01	\$ 8,745.25	\$ 14,924.82	\$ 30,411.68
Sales .....	-----	67.25	483.10	819.75	1,972.70	3,342.80
Total .....	-----	\$ 1,446.85	\$ 5,845.11	\$ 9,565.00	\$ 16,897.52	\$ 33,754.48

## MORO VILLAGE

Admissions .....	-----	\$ 3,217.50	\$ 7,229.16	\$11,795.05	\$ 18,350.66	\$ 40,592.37
Sales .....	-----	-----	-----	9.00	23.00	32.00
Total .....	-----	\$ 3,217.50	\$ 7,229.16	\$11,804.05	\$ 18,373.66	\$ 40,624.37

## NEGRITO VILLAGE

Admissions .....	-----	\$ 1,326.55	\$ 5,081.47	\$ 9,961.45	\$ 20,060.02	\$ 36,429.49
Sales .....	-----	-----	-----	6.15	12.80	18.95
Total .....	-----	\$ 1,326.55	\$ 5,081.47	\$ 9,967.60	\$ 20,072.82	\$ 36,448.44

## BAGOBO VILLAGE

Admissions .....	-----	-----	-----	-----	\$ 2,266.17	\$ 2,266.17
------------------	-------	-------	-------	-------	-------------	-------------

## OTHER SOURCES

Admissions .....	\$ 468.00	\$ 1,703.15	\$ 1,821.31	\$ 4,376.23	\$ 5,835.42	\$ 14,204.11
Sales .....	30.27	767.95	1,772.43	3,204.86	4,132.17	9,907.68
Total .....	\$ 498.27	\$ 2,471.10	\$ 3,593.74	\$ 7,581.09	\$ 9,967.59	\$ 24,111.79

It will be noted from the foregoing statement that the bulk of the revenue of the Board was derived from admissions to the five native villages.

All of these villages were financed and operated by the Board and their gross receipts were collected by the cashier through ticket sellers stationed at the entrance gates. The gross receipts of the Igorot village were subject to a deduction of 5 per cent. on account of commission paid T. K. Hunt, manager, under the terms of his contract, which payment was made through the disbursing officer of the Board.

Of the gross receipts of the Visayan village, 25 per cent. accrued to the Board as revenue, and 75 per cent was received as a reimbursement for expenses incurred on account of this village including its return to the Philippines. After the Board has been thus reimbursed, the net profits of the village are to be equally divided with its manager, Mr. M. R. Healy. The gross receipts of the Moro, Negrito and Bagobo villages are revenue to the Board without deduction.

Next in importance to admissions, as a source of revenue, are restaurants. Four are now in operation; two where meals are served, and two where light lunches, etc., may be obtained. The board received 25 per cent. of the gross receipts of all restaurants, except on sales of manufactured tobacco, the percentage on which is  $12\frac{1}{2}$  per cent.

The receipts from miscellaneous concessions are shown under the heading "sales" and "rents," the latter classification also including ground rents and space sold for the period of the Exposition.

Reimbursements to expenses represent re-payments made to the board for material, labor, etc., furnished concessionaires or others.

In addition to the receipts, which have been deposited to the credit of the treasurer of the Philippine Islands and revert to the credit of the appropriation made for the Philippine Exposition, the cashier has sold one thousand two hundred and ten sets of Philippine coins for \$2420. These coins were sent here by the war department for sale, the amount realized being deposited to the credit of the "Gold Standard" account of the Philippine government, and are not treated as a revenue of the board.

The personnel of the cashier's department comprises the following employees:

One cashier, one chief clerk, four other clerks, fifteen ticket sellers, four cash clerks. The total monthly payroll of the cashier's department amounts to \$1,705. The salaries of six of these employees, aggregating \$430.00 per month are reimbursable by concessionaires, or others.

## THE PURCHASING DEPARTMENT.

GEORGE S. CLARK, PURCHASING AGENT.

---

In order that purchases might be made as economically and expeditiously as possible, a purchasing agent was appointed January 15, 1904. From that date to September 30th there were issued from his office on various mercantile firms for supplies and materials, twenty-one hundred requisitions, which were approved for purchase by the chairman of the Board, or by the executive officer. During the construction period, the chief items of expense were lumber, hardware and other materials necessary for the completion of buildings, mill work, etc. A considerable quantity of office furniture, such as desks, tables and necessary office supplies was also purchased. For roads and walks, approximately two hundred and twenty-five cars of cinders were necessary. The cinders were purchased from the St. Louis Transit Company as a rule, although the Laclede Gaslight Company furnished gratis, with the exception of freight charges, about one hundred cars, which would have cost on a former basis about \$1,500.

Invariably everything requested, for construction or otherwise, was for immediate use and the office was being continually called upon to "rush," which was done in every matter, with generally satisfactory results, although on account of the unnatural business conditions existing at the time it was necessary to persistently pursue the business houses to get results. It was the policy of the office in buying goods which covered any amount of expense, to secure two or more bids, and the records will show that the lowest bidder secured the business. On a few occasions, orders were placed direct, but the circumstances in every case warranted the proceedings.

Triplicate bills have been retained for every purchase, with dray tickets attached, showing delivery, together with copies of bids. Correspondence on the various subjects is filed in regular order for immediate reference now or in the future.

The amount of purchases in money value is indicated by the payments made by the disbursing officer in St. Louis.

## THE COMMISSARY DEPARTMENT.

CAPT. M. C. BUTLER, U. S. A., COMMISSARY OFFICER.

A commissary department was organized at an early date for the purpose of furnishing subsistence to the Filipinos and others on the reservation entitled to subsistence at the expense of the government by law or by contract. No separate record was kept of these subsistence supplies at the outset, but on May 10th, when an officer of the United States army was detailed as commissary officer, proper accounts and returns were made, and the privileges of the commissary were extended so as to permit certain employes, and especially the constabulary band and battalion to purchase subsistence.

The following statement shows the total purchases and the total and average cost of the subsistence of the various villages, persons, etc., during the period from May 10th to September 30th, inclusive:

	PERSONS	TOTAL	PER PERSON
Negrito Village-----	38	\$ 684.21	\$0.12932 Daily
Constabulary -----	280	5,065.20	.13019 "
Visayan Village-----	95	1,757.96	.13573 "
Igorot Village-----	111	2,279.87	.11439 "
Lanao Village (Moro)-----	38	746.01	.14116 "
Samal Village (Moro)-----	40	772.59	.14698 "
Bagobo Village-----	30	246.44	.19712 "
Philippine Students-----	100	702.24	.22652 "X
Hospital -----	---	672.92	----- "
Constabulary Officer Mess-----	---	399.48	----- "
Igorot Manager Mess-----	---	109.18	----- "
Negrito Manager Mess-----	---	45.03	----- "
Miscellaneous-----	---	532.45	----- "

The total amount of purchases was \$13,946.66. The total amount of issues \$14,155.34. The average cost per person per day, \$0.14721. The issues exceed the purchases because of bills outstanding and unpaid on Sept. 30th.

The commissary and purchasing department were consolidated under the purchasing agent October 11th, on which date Captain Butler's accountability closed.

## FINANCIAL STATEMENT.

The following statement shows, in detail, the disbursements made by the Board to September 30, 1904, from funds derived from all sources, including the appropriation made by the Louisiana Purchase Exposition Company of \$200,000. From this latter source there is yet due the Board a balance approximating \$12,000:

Total expenditures.....		\$991,567 05

Additional disbursements not included in this statement were made by Carson Taylor, D. O., at Manila, P. I., of \$166,514.18, the whole amount being administrative expenses and cost of exhibits purchased.

Disbursements were also made by J. G. Jester, Philippine disbursing agent at Washington, and by other disbursing officers in the Philippine Islands, whose accounts were rendered direct to the auditor at Manila, no full reports having been received as yet by the Board, but as shown by partial reports and indicated by net withdrawals, such amounts were \$162,404.27. It is therefore apparent that the total official disbursements, from funds derived from all sources, for the Philippine exhibit September 30, 1904, amounted to \$1,320,485.50, crediting the receipts to September 30, amounting to \$312,019.85, and deducting \$189,423.18, furnished by the Louisiana Purchase Exposition Company, leaves a difference of \$819,042.47, as the net cost of the exhibit to the Philippine treasury to September 30, 1904. This statement will be affected and probably materially reduced by the receipts and expenditures since that date.

## RETRENCHMENTS.

On account of the unexpectedly large outlay in installing the Exposition and the disappointing receipts in reimbursement, it was deemed wise early in July to adopt radical steps toward retrenchment. This was begun under the advice and direction of Colonel Clarence R. Edwards, Chief of the Bureau of Insular Affairs of the War Department, through which bureau the Exposition Board is responsible to the Philippine Government. Due to Colonel Edwards' intelligent and energetic efforts, much was accomplished in this direction. As rapidly as practicable without impairment to the service, departments were consolidated, and in complete furtherance of these measures of economy, a new scheme of organization was adopted August 15th, under which the offices of Executive Officer and Chief of Exploitation were abolished, the positions of engineer of grounds and landscape gardener were consolidated, and the force of clerks, laborers and guards was reduced. Later the offices of purchasing agent and commissary officer were consolidated.

The organization since August 15th has remained substantially the same, except for the abolishment of certain minor positions, as rapidly as their services could be spared, and the addition of lecturers or "spielers" for the purpose of attracting visitors to the various villages. With the promotion of Mr. Herbert S. Stone from chief of publicity to membership on the Board, this office was abolished, the work of publicity being practically ended.

The official organization at this time is as follows:

Honorable A. L. Lawshe, chairman.

Dr. Gustavo Niederlein, member.

Herbert S. Stone, member.

Dr. Leon M. Guerrero, secretary.

Carson Taylor, disbursing officer.

A. T. Ruan, cashier.

Under the present organization of the Board, to the chairman, in addition to his general executive functions, is assigned jurisdiction over revenues and disbursements; Dr. Gustavo Niederlein continues as director of exhibits, and Mr. Herbert S. Stone, as member and executive officer, has supervision over administrative matters on the grounds and in the villages.

The foregoing is the organization provided for in the various laws of the Philippine Commission governing the Philippine exhibit. In the performance of its work the Board has a corps of assistants not specifically named in the statutes, but appointed by the Board under the general authority conferred

upon it, such as a purchasing agent and commissary officer, a property clerk, a chief of concessions and an officer in charge of each exhibit building, as indicated elsewhere in this report, and a general clerical, police and labor force. The authorized personnel on November 1st was in detail as follows:

Office of chairman:

Chairman, one stenographer, one employe, total monthly pay roll, including per diem for expenses to the chairman, \$841.66.

Office of director of exhibits:

One member, one stenographer; total monthly pay roll including per diem for expenses to the director of exhibits, \$733.33.

Office of member and executive officer:

One member, one pass clerk and stenographer; total monthly pay roll, including per diem of member and executive officer, \$698.33.

Office of secretary:

Secretary of the board, one clerk and typewriter at \$100.00, one clerk and typewriter at \$65.00; total monthly pay roll including per diem of secretary, \$583.33.

General force:

One reporter at \$125.00, one stenographer at \$75.00, one clerk and stenographer at \$65.00, two stenographers at \$60.00, one superintendent of buildings and janitors at \$100.00, one head janitor at \$2.00 per day, 16 janitors at \$1.60 per day each, six messengers at \$20.00 per month, one chief spieler at \$5.00 per day, ten spielers at \$3.50 per day; total monthly pay roll \$2,393.00.

Office of disbursing officer:

Disbursing officer, one clerk at \$116.66, one clerk at \$100, one stenographer at \$75.00; total monthly pay roll \$441.66.

Timekeepers: One in charge at \$65.00, two at \$60.00 each; monthly pay roll \$185.00.

Cashier's office:

Cashier, one clerk at \$125.00, two clerks at \$75.00, one clerk at \$60.00, one employe at \$60.00, twelve ticket sellers at \$60.00, three ticket sellers (to be reimbursed by concessionaires), two cash clerks at \$60.00 (one to be reimbursed by concessionaire), one employe (to be reimbursed by Gold Coin Fund) at \$50.00, three employes for relief ticket sellers and others at \$60.00, one cash clerk at \$40.00 (to be reimbursed by concessionaire); total monthly pay roll \$1,705.00.

Office of concessions:

One chief clerk, one clerk and accountant at \$116.66, two clerks at

\$60.00, eleven ticket takers at \$60.00, (one to be reimbursed by concessionaire), one checker at \$60.00 (to be reimbursed by concessionaire), one checker at \$25 per week (to be reimbursed by concessionaire), additional ticket taker at \$60.00, one checker at \$60.00 (to be reimbursed by concessionaire), one inspector at \$100, one inspector at \$75, four employes for all relief purposes at \$60.00, one ticket counter at \$40.00; total monthly pay roll, \$1,756.66.

Property division:

One clerk in charge, one clerk at \$65.00, one clerk at \$60.00, one customs house clerk at \$60.00; total monthly pay roll \$318.33.

Office of purchasing agent and commissary officer:

Purchasing agent, one clerk and stenographer at \$100.00, one clerk at \$75.00, one storekeeper at \$60.00, one laborer at \$60.00; total monthly pay roll including per diem of purchasing agent, \$535.00.

Hospital:

Two officers, one from the regular army and one from the constabulary, detailed without pay from the Exposition Board; one dispensing officer, one head nurse at \$45.00, two nurses at \$40.00, one cook, one employe, one messenger; total monthly pay roll \$310.00; all employes connected with hospital being entitled to subsistence.

War exhibit:

Constabulary, one employe at \$75.00, scouts, one employe at \$75.00; total monthly pay roll \$150.00.

Agricultural building:

One employe in charge, \$150.00.

The Cuartel:

Constabulary officer in charge, one employe, one fireman at \$2.25 per day, one fireman at \$2.00 per day; total monthly pay roll, \$202.50.

Forestry building: One employe in charge, two laborers for cleaning exhibits; total monthly pay roll, \$270.00.

Manila building: One employe in charge at \$75.00.

Fish and Game building: One employe in charge at \$100.00.

Mine's building: One employe in charge at \$100.00.

Commerce building: One employe in charge at \$125.00.

Educational building: One officer of the Philippine Education department on detail without pay from the Exposition board; one teacher, one employe; total monthly pay roll \$160.00.

Ethnology building: One officer on detail from the Philippine Islands

without pay from the Exposition board; one employe; total monthly pay roll \$60.00.

Moro villages:

One manager, two employes at \$100.00 per month; pay roll of Samal Moros, \$325.00; pay roll of Lanao Moros, \$380.00; total monthly pay roll, \$1,055.00.

Igorot village:

One manager, one assistant manager; pay roll of Igorot per month, \$1,185.00; pay roll of Tinguianes, \$140.00; pay roll of Suyocs, \$320.00; Bontocs, \$725.00; total pay roll of village monthly, \$1,451.66. Under the arrangement at this village, the manager is to receive his percentage weekly and to assume all other salary charges except the pay of the Igorot and the necessary gate keepers and ticket sellers.

Negrito village:

Manager, assistant manager, three assistants at \$30.00 per month each; pay roll of natives in Negrito village, Negritos and Manguianes, \$320.00; total pay roll, \$660.00.

Visayan village:

One clerk at \$125.00, one theater manager at \$125.00, one clerk at \$60.00, one market clerk at \$40.00, one messenger at \$20.00, two speilers at \$3.50 per day, one watchman at \$2.00 per day, three laundresses at \$1.50 per day; monthly pay roll of Visayans, \$1,130.00; total monthly pay roll of village, \$1,854.00.

Bagobo village:

Manager, \$100.00; estimated pay roll of village, \$380.00.

Guards:

One inspector in charge, \$100.00; three assistant inspectors at \$2.25 per day each, thirty-seven guards at \$2.00 per day; total monthly pay roll, \$2,522.50.

Music:

One band leader, \$75.00; one cornetist, \$45.00; total, \$120.00.

Power house:

One superintendent, one foreman steam fitters, one clerk, one store keeper, one stenographer; as to the remainder of the employes at the power house, their time is computed by the hour at different rates, all depending on the nature of the work; at times, the pay roll has been as high as \$4,000 for the latter named; the total monthly pay roll of the power house is estimated at \$3,185.00.

Superintendent of grounds and laborers:

One superintendent at \$125.00 per month, one foreman at \$2.75 per day, one assistant foreman at \$2.25 per day, two laborers at 22½ cents per hour, thirty laborers at 20 cents per hour, one water boy at 12½ cents per hour, two teams at \$5.00 per day, four carpenters at 55 cents per hour, one employe at \$2.50 per day, two employes at \$3.20 per day; total monthly pay roll \$3,330.90.

This force will be greatly reduced after December 1, when the Exposition closes, but there must be a very large increase in the force of laborers to be employed in packing, and necessary clearing of the grounds.

A considerable sum will be derived from the sale of merchandise exhibits, and other property, to say nothing of the amount to be derived from wreckage.

The Board therefore confidently expects to be able to pay all future expenses, close the business of the Exposition, and have remaining a considerable sum to be turned back into the general funds of the Philippine treasury.

Before concluding this report, the Board should make due acknowledgment of the valuable services rendered by the exhibitors and collaborators who have worked for the success of the Exposition and the assistance in the compilation of this report of each chief of department or branch of the service as indicated.

A. L. LAWSHE, Chairman.

GUSTAVO NIEDERLEIN, Member and Director of Exhibits.

HERBERT S. STONE, Member and Executive Officer.

LEON M. GUERRERO, Secretary.

St. Louis, December 1, 1904.

# **OFFICIAL LIST OF AWARDS.**

**GRANTED BY**

**THE PHILIPPINE INTERNATIONAL JURY  
AT THE PHILIPPINE GOVERNMENT EXPOSITION  
WORLD'S FAIR, ST. LOUIS, MO.**

# OFFICIAL LIST OF AWARDS.

GRANTED BY

THE PHILIPPINE INTERNATIONAL JURY

AT THE PHILIPPINE GOVERNMENT EXPOSITION

WORLD'S FAIR, ST. LOUIS, MO.

---

The Philippine International Jury of Awards was agreed upon, together with its jury system, which includes the "Honorable Mention," by the Philippine Exposition Board, after consultation with the Bureau of Insular Affairs, War Department, Washington, D. C., the Louisiana Purchase Exposition Company and the National Commission. It was organized with the help of the forty Filipino Honorary Commissioners especially selected from the very best elements of the country, namely, Members of U. S. Philippine Commission, Provincial Governors, Magistrates, Municipal Presidents, Planters, Importers, Exporters, etc., sent by the Insular Government to this country to become thoroughly acquainted with the United States and the World's Fair. The object of the Philippine International Jury of Awards was, in granting prizes, to give well based encouragements of special educational value. The composition of this jury was as follows:

## SUPERIOR JURY.

President—Hon. Wm. H. Taft, Secretary of War.

First Vice-President—Dr. Wm. P. Wilson, Chairman Philippine Exposition Board.

Second Vice-President—Hon. Wm. Lindsay, Member National Commission.

Third Vice-President—Mr. Frederick J. V. Skiff, Director of Exhibits, World's Fair, St. Louis.

Secretary—Dr. Gustavo Niederlein, Member of Philippine Exposition Board, Director of Exhibits.

Assistant Secretary—Dr. Leon Ma. Guerrero, Secretary Philippine Exposition Board.

## MEMBERS.

Hon. David R. Francis, President Louisiana Purchase Exposition.

Hon. Thomas H. Carter, President National Commission.

Hon. A. L. Lawshe, Member Philippine Exposition Board.

Hon. John M. Allen, Member National Commission.

Hon. Frederick A. Betts, Member National Commission.

Hon. Martin H. Glynn, Member National Commission.

Hon. Lawrence H. Grahame, Secretary National Commission.

Hon. John F. Miller, Member National Commission.

Hon. George McBride, Member of National Commission.

Hon. Philip D. Scott, Member National Commission.

Hon. John M. Thurston, Member National Commission.

## **JURY OF REVISION.**

### **DIRECTORS EX-OFFICIO.**

**Dr. Wm. P. Wilson, Chairman of the Philippine Exposition Board.**

**Dr. Gustavo Niederlein, Member and Director of Exhibits in charge of the jury work.**

**Mr. A. L. Lawshe, Member of the Philippine Exposition Board, in charge of Finances.**

### **MEMBERS.**

**Charles P. Fenner, Chief Department of Commerce and Manufactures, Philippine Exposition Board, President of Jury of Manufactures, and Member of Jury of Agriculture.**

**Dr. Leon Ma. Guerrero, Secretary Philippine Exposition Board, Chief Departments of Fine Art and Liberal Arts, and President Juries of Fine Art and Liberal Arts.**

**A. R. Hager, Chief Department of Education, Philippine Exposition Board, President of Jury of Education.**

**Charles L. Hall, Chief Departments of Agriculture, Horticulture and Land Transportation, Philippine Exposition Board, President of Juries of Agriculture and Transportation, and Member of Juries of Horticulture and Live Stock.**

**Victor J. Hall, Assistant Chief of Departments of Fine Arts and Liberal Arts, Philippine Exposition Board, President of Jury of Machinery, Member of Juries of Manufactures and Liberal Arts.**

**Roy Hopping, Chief Department of Mines and Metallurgy, Philippine Exposition Board, President of Jury of Mines and Metallurgy.**

**George P. Linden, Chief Department of Forestry, Philippine Exposition Board and President Jury of Forestry.**

**Jose Quadras, Chief Department of Fish and Game, Philippine Exposition Board, President Juries of Fish and Game and Water Transportation.**

**Miss Pilar Zamora, Director of Model School, Philippine Exposition Board, Member and Secretary of Juries of Manufactures and Education.**

## GROUP AND DEPARTMENT JURY.

Director of the Jury—Dr. Gustavo Niederlein, Member of the Exposition Board and Director of Exhibits.

Secretary of the Jury—Dr. Leon Ma. Guerrero, Secretary of the Exposition Board.

Chairman of the Jury of Education—A. R. Hager; Secretary—Miss Pilar Zamora.

Chairman of the Jury of Fine Art—Leon Ma. Guerrero; Secretary—A. Fuster.

Chairman of the Jury of Liberal Arts—Dr. Leon Ma. Guerrero; Secretary—Dr. Roman Lacson.

Chairman of the Jury of Commerce and Manufactures—Hon. Benito Legarda; Vice-Chairman—Charles P. Fenner; Secretary—Miss Pilar Zamora.

Chairman of the Jury of Machinery—Victor J. Hall.

Chairman of the Jury of Water Transportation—Jose Quadras.

Chairman of the Jury of Land Transportation—Charles L. Hall.

Chairman of the Jury of Agriculture—Charles L. Hall.

Chairman of the Jury of Horticulture—John Hetherington.

Chairman of the Jury of Forestry—George P. Linden.

Chairman of the Jury of Mines and Metallurgy—Roy Hopping.

Chairman of the Jury of Fish and Game—Jose Quadras.

Chairman of the Jury of Anthropology—Dr. Albert E. Jenks.

Chairman of the Jury of War Exhibits—Major William H. Johnston; Secretary—Capt. F. E. Cofren.

## MEMBERS.

Hon. Julio Agcaoili, Juror for Manufactures.

Dr. Alejandro Albert, Juror for Liberal Arts.

A. E. Anderson, Juror for Liberal Arts.

Juan Araneta, Juror for Agriculture.

Tomas Arguelles, Juror for Transportation.

Charles S. Banks, Juror for Agriculture and Fish and Game.

Marcial Calleja, Juror for Agriculture.  
Alfredo de Castro, Juror for Forestry.  
H. D. Deputy, Juror for Liberal Arts.  
Antonio G. Escamilla, Juror for Transportation.  
Ramon B. Genato, Juror for Art.  
Guillermo Gomez, Juror for Fish and Game.  
Manuel de Iriarte, Juror for Art and Horticulture.  
Ceferino de Leon, Juror for Mining and Metallurgy.  
Juan de Leon, Juror for Manufactures.

Hon. Mariano Trias, Juror for War.

Gervasio Unson, Juror for Live Stock.

Hon. Juan Villamor, Juror for Manufactures, War, Mining and Anthropology.

The work of the last named Group and Department Jury, appointed July 27, 1904, was done under the direction of the Director of Exhibits, Dr. Gustavo Niederlein, beginning July 28th and ending September 15th, when the Jury of Revision commenced its task of reviewing, which was finished October 13th. On the following day the Superior Jury was convened and adopted the following resolution:

"Resolved, that the report presented by the Director of the Department Jury be accepted, and that a committee consisting of the First Vice-President, the Secretary and the Assistant Secretary of this Jury, be authorized to publish the awards as embraced in this report, and that they be constituted a committee to receive any expressions of dissatisfaction and to remedy the same, as well as any omissions, and that one week after such publication this committee may promulgate the awards as found, unless important changes make it proper for the convening of the Superior Jury, which the First-Vice-President is authorized to call."

It was also agreed and resolved that "there may be voted to certain meritorious individuals, government officials, chiefs, commanding and other officers, soldiers, musicians, etc., a special medal of honor, in gold, silver or bronze, to be hereafter determined, and that the Secretary of the Superior Jury be instructed to re-arrange his reports in accordance with the action of the Superior Jury."

In conformity with the above resolution the following design and regulations for the Medal of Honor was decided upon, with the approval of the Bureau of Insular Affairs, Washington, D. C.:

The Medal of Honor awarded by the Philippine Government is of gold, silver or bronze, of one inch and three-eighths diameter, pendant, according to classes as described below, from a watered silk ribbon, one inch and a half wide, of white, red and blue (the colors of the Philippines), the red in the center being half of the width of the ribbon. It is surrounded by an annulet and of the following design:

**Obverse.** Within the annulet the words, "Medal of HONOR," and the date "1904," surrounding an open wreath of laurel and oak, within which is a shield of American design bearing the arms of the Philippine Islands surmounted by the American eagle, being the official badge of the Philippine International Jury of Awards.

**Reverse.** Within the annulet above described a circular inscription,

containing the words, "Government of the Philippine Islands," within which are the words "To" (name of recipient), "For merit, World's Fair, St. Louis, U. S. A."

To distinguish the class awarded, the Medal of Honor will be worn as follows:

**FIRST CLASS—GRAND PRIZE.**

A combination of the designs of the official badges of the International Jury of Awards of the Louisiana Purchase Exposition and the Philippine International Jury of Awards, as follows:

The medal above described, of gold, within a Maltese Cross, of white enamel with gold edge, between the points of which are four gold fleur-de-lys, being the design of the official badge of the International Jury of Awards of the Louisiana Purchase Exposition; the whole pendant by a wreath of laurel and oak, enameled green, from the regulation ribbon, upon which is placed a rosette of the same colors.

**SECOND CLASS—GOLD MEDAL.**

The same combination as first class, but without the rosette upon the ribbon.

**THIRD CLASS—SILVER MEDAL.**

The same combination as second class, except that the medal within is of silver.

**FOURTH CLASS—BRONZE MEDAL.**

The medal alone of bronze, pendant from the ribbon by a wreath of bronze.

**FIFTH CLASS—HONORABLE MENTION.**

The same as fourth class, but pendant by a ring.

The Medal of Honor is accompanied by the following Diploma:

THE GOVERNMENT OF THE PHILIPPINE ISLANDS  
with the approval of  
THE SECRETARY OF WAR  
confers upon

---

A MEDAL OF HONOR  
of the \_\_\_\_\_ class.

As recommended by the Superior Jury of the Philippine International Jury of Awards for services in furthering the welfare and progress of the Philippine Islands.

THE PHILIPPINE EXPOSITION BOARD.  
For the Government of the Philippine Islands.

A. L. LAWSHE, Chairman.

GUSTAVO NIEDERLEIN, Director of Exhibits.

HERBERT S. STONE, Executive Officer.

Attest:

LEON M. GUERRERO, Secretary.

Approved by direction of the Secretary of War, at Washington, D. C., this first day of December nineteen hundred and four.

[Seal.]

CLARENCE R. EDWARDS, Colonel U. S. A.  
Chief Bureau of Insular Affairs.

Any recipient of the Medal of Honor, who, at any time, may, by misconduct or felony, prove unworthy of this distinction of honor, shall be deprived of the privilege of wearing it.

The following tables give a resume of the number and different kinds of awards granted by the Philippine International Jury of Awards:
